BOARD FOR CORRECTION OF NAVAL RECORDS  
2 NAVY ANNEX  
WASHINGTON DC 20370-5100

JRE

Docket No. 06417-08  
5 October 2009

[REDACTED]

[REDACTED]

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 27 August 2009. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. In this regard, the Board concurred with the findings of the Traumatic Servicemembers Group Life Insurance Appeal Board decision of 28 January 2008 that you failed to demonstrate that you were unable to bathe without assistance for 30 consecutive days as a result of the wounds you sustained on 23 August 2006. The Board for Correction of Naval Records noted that the available records indicate that you required assistance in dressing your wound before bathing for an unspecified period of time; however, a medical record entry dated 22 September 2006 indicates that you had been "packing" the wound "every other or third day", which indicates that you no longer required assistance dressing the wound before bathing for some period of time prior to 22 September 2006.

In view of the foregoing, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

  
W. DEAN PFEIFFER  
Executive Director
