This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

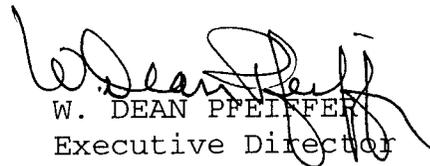

You requested modifying the fitness report for 1 January to 31 December 2006 by removing "all adverse comments and remarks to assignment to Body Composition Program" and completely removing the report for 23 October to 31 December 2003. You also initially requested modifying the reports for 13 October 1998 to 23 April 1999 and 1 January to 15 June 2007, but you telephonically indicated on 18 July 2008 that you were satisfied with complete removal of these reports, which has been directed by the Commandant of the Marine Corps (CMC).

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 2 October 2008. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies. In addition, the Board considered the report of the Headquarters Marine Corps Performance Evaluation Review Board (PERB), dated 30 July 2008, and the e-mail from the HQMC Performance Evaluation Review Branch (MMER) dated 13 August 2008, copies of which are attached.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. In this connection, the Board substantially concurred with the comments contained in the report of the PERB concerning the two remaining fitness reports in question. Accordingly, your application for relief beyond that effected by CMC has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

W. DEAN PFEIFFER
Executive Director
