Docket No. 00944-08
29 August 2008

[REDACTED]

[REDACTED]

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

You requested removing the original fitness report for 21 September 2005 to 15 September 2006 and related material. You also impliedly requested removing the supplemental report for the same period and the undated letter of transmittal forwarding that report.

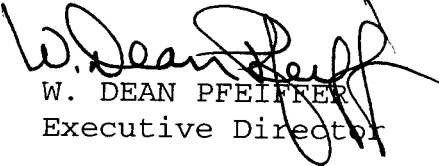

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 28 August 2008. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies. In addition, the Board considered the advisory opinion furnished by the Navy Personnel Command dated 29 February 2008, a copy of which is attached. The Board also considered your letter dated 8 April 2008.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. In this connection, the Board substantially concurred with the comments contained in the advisory opinion.

The Board was unable to find that block 28 ("Command employment and command achievements") of your fitness report for 21 September 2005 to 15 September 2006 should have shown "MOB," noting the reporting senior did not make that change in the supplemental report he submitted for the period. In view of the above, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

W. DEAN PFEIFFER
Executive Director
