

DEPARTMENT OF THE NAVY
BOARD FOR CORRECTION OF NAVAL RECORDS
2 NAVY ANNEX
WASHINGTON DC 20370-5100

JRE
Docket No. 10406-09
20 July 2010

[REDACTED]

Dear [REDACTED]

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 9 July 2010. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice.

You enlisted in the Marine Corps on 4 October 1967. On 27 June 1969 a medical board gave you a diagnosis of schizophrenic reaction, paranoid type, existed prior to entry, not aggravated by service, and recommended that you be discharged without entitlement to disability benefits administered by the Department of the Navy. The medical board report indicates that your illness began prior to your enlistment, and that you had suffered from psychotic symptoms for many years. On 27 June 1969, after being advised of the findings and recommendation of the medical board, you waived your right to a hearing before a physical evaluation board, acknowledged that you would be separated in the near future without entitlement to disability retirement or severance pay, and requested that you be discharged as soon as possible. You were discharged in accordance with your request on 15 August 1969. On 27 September 1990, the Veterans administration (VA) granted your request for service

connection for schizophrenia, and assigned a disability rating of 0%. The basis for the VA's decision to grant your request for service connection is not shown in the available records.

In the absence of evidence which demonstrates that you were unfit for duty by reason of physical disability that was incurred in or aggravated by your naval service, the Board was unable to recommend any corrective action in your case. Accordingly, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

W. DEAN PFEIFFER
Executive Director
