

DEPARTMENT OF THE NAVY  
BOARD FOR CORRECTION OF NAVAL RECORDS  
2 NAVY ANNEX  
WASHINGTON DC 20370-5100

BJG  
Docket No: 12691-09  
25 August 2010

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 24 August 2010. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. The Board found that you entered active duty in the Navy on 29 June 2005. On 29 November 2006, you were placed in a limited duty status. On 18 June 2007, you were diagnosed with a psychogenic water drinking disorder. On 9 October 2007, you found to be unsuitable for operational duty based on the psychogenic water drinking disorder. On 24 October 2007, you were notified that you were going to be administratively separated with an honorable discharge due to the convenience of the government (condition not a disability),

and assigned an RE-4 (not recommended for retention) reenlistment code. You were so separated on 31 October 2007.

In its review of your application, the Board carefully weighed all potentially mitigating factors, such as your youth and current desire to serve in the armed forces. However, the Board concluded that your reenlistment code should not be upgraded due to your diagnosed psychogenic water drinking disorder. In view of the above, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

  
W. DEAN PFEIFFER  
Executive Director
