BOARD FOR CORRECTION OF NAVAL RECORDS  
2 NAVY ANNEX  
WASHINGTON DC 20370-5100

BJG

Docket No: 12904-09

2 September 2010

[REDACTED]

[REDACTED]

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

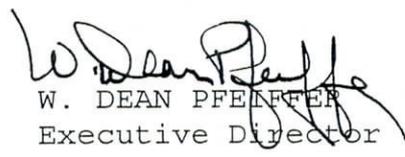

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 31 August 2010. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. The Board found that you entered active duty in the Navy on 21 August 2001. You failed the physical readiness test (PRT) on three occasions. On 20 October 2005, you were released from the Navy under honorable conditions at the end of your active obligated service, and assigned an RE-4 (not recommended for retention) reenlistment code. You were honorably discharged from the Navy Reserve on 15 August 2009, and were not recommended for reenlistment.

In its review of your application, the Board carefully weighed all potentially mitigating factors, such as your youth, honorable service, and current desire to serve in the armed forces. However, the Board concluded that your reenlistment code should not be upgraded due to your three PRT failures. In view of the above, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

  
W. DEAN PFENFFER  
Executive Director
