

DEPARTMENT OF THE NAVY
BOARD FOR CORRECTION OF NAVAL RECORDS
2 NAVY ANNEX
WASHINGTON DC 20370-5100

REC
Docket No: 05238-10
3 March 2011

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 2 March 2011. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record, and applicable statutes, regulations, and policies.

After careful and conscientious consideration of the entire record, the Board found the evidence submitted was insufficient to establish the existence of probable material error or injustice.

You enlisted in the Navy and began a period of active duty on 13 April 2010, at age 20. On 19 April 2010, you were referred to a mental health evaluation and diagnosed with cannabis dependence in full sustained remission, and a schizotypal personality disorder. You were counseled regarding your condition, and advised to seek treatment after separation. Based on the mental health evaluation, and the fact that you failed to disclose your previous use of marijuana from age 14 through 17, and the fantasy you had of killing a co-worker with a knife, you were processed for separation by reason of a diagnosed personality disorder. After you were advised of your rights, you elected to receive copies of documents to be forwarded to the separation authority, but waived all your other procedural rights. Subsequently, on 30 April 2010, you were discharged with an uncharacterized entry level separation by reason of your diagnosed personality disorder. At that time, you were assigned a reentry code of RE-4.

In its review of your application, the Board considered all mitigating factors, such as your youth. Nevertheless, the Board

found these factors were insufficient to warrant changing your reentry code due to your diagnosed personality disorder. The Board noted that applicable regulations authorize an uncharacterized discharge for individuals who fail to complete recruit training. The Board thus concluded that there is no error or injustice in your reentry code which was correctly assigned under your circumstances. Accordingly, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

W. DEAN PFEIFFER
Executive Director
