Docket No. 07488-12

24 January 2013

[REDACTED]

Dear [REDACTED]

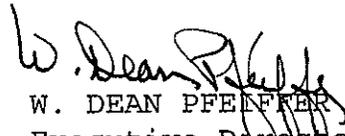

This is in reference to your for correction of your naval record pursuant to the provisions of title 10, United States Code, section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 24 January 2013. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, and applicable statutes, regulations and policies. In addition, the Board considered the advisory opinions furnished by the Navy Personnel Command dated 21 September and 25 October 2012, each with enclosure, copies of which are attached. The Board also considered your letters dated 7 August 2012 and 30 November 2012 with enclosures.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. In this connection, the Board substantially concurred with advisory opinions. The Board was unable to find the contested detachment for cause was in reprisal for actions you took concerning a former command master chief and executive officer. Specifically concerning the contested fitness report, the Board was unable to find the entry in block 21 ("Billet Subcategory") was incorrect, or that your signature in block 46, indicating that you had seen the report, was a forgery. In view of the above, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

  
W. DEAN PFEIFFER  
Executive Director
