Docket No: NR337-14
8 May 2014

IT1 [REDACTED] USN

Dear Petty Officer [REDACTED]

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

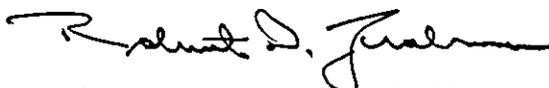

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 8 May 2014. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof and applicable statutes, regulations and policies. In addition, the Board considered the advisory opinion furnished by the Navy Personnel Command (NPC) dated 7 March 2014, a copy of which is attached. The Board also considered your letter dated 31 March 2014 with attachments.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. In this connection, the Board substantially concurred with the advisory opinion, noting that a memorandum has been filed in your record correcting the beginning date of the contested performance evaluation report from 16 November 2010 to 16 November 2009 and that the error in block 45 ("Promotion Recommendation - Individual") was in your favor. Concerning your statement to the report in question, the Board noted that your letter of 31 March 2014 stated you were submitting it to NPC (PERS-32), which can file it in your record with the report at issue without action by the Board. In view of the

above, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

ROBERT D. ZSALMAN
Acting Executive Director
