Encl: (1) DD Form 149 w/attachments
(2) Case summary
(3) BUMED memo 5740 Ser M34/17UM34139 dtd 3 May 17
(4) Subject's naval record (excerpts)

1. Pursuant to the provisions of reference (a) Subject, hereinafter referred to as Petitioner, filed enclosure (1) with this Board requesting, in effect, that the applicable naval record be corrected to.

2. The Board, consisting of [REDACTED] reviewed Petitioner's allegations of error and injustice on 12 May 2017 and, pursuant to its regulations, determined that the corrective action indicated below should be taken on the available evidence of record. Documentary material considered by the Board consisted of the enclosures, naval records, and applicable statutes, regulations and policies. In addition, the Board considered enclosure (3), which was furnished by the Navy Bureau of Medicine and Surgery (BUMED).

3. The Board, having reviewed all the facts of record pertaining to Petitioner's allegations of error and injustice, finds as follows:

a. Before applying to this Board, Petitioner exhausted all administrative remedies available under existing law and regulations within the Department of the Navy.

b. Although enclosure (1) was not filed in a timely manner, it is in the interest of justice to waive the statute of limitations and review the application on its merits.

c. Petitioner enlisted in the Marine Corps, began a period of active duty on 29 July 1965. He served as an infantryman in Vietnam during the period from 21 July 1966 to 10 November 1966 where he was wounded in action and as a result is a Purple Heart recipient.

d. Petitioner was charged on 10 August 1967, for disobeying a lawful order by not buying a utility cover that would fit him.

e. Petitioner went unauthorized absence on two occasions from 1 to 3 September 1967 and 10 November to 8 December 1967.

f. On December 1967, Petitioner was arrested by civil authorities for the presence of military artillery.

g. Petitioner was discharged with an other than honorable conditions characterization of service on 4 October 1968.

h. On 22 May 2015, Petitioner underwent an evaluation and was diagnosed with combat related Post Traumatic Stress Disorder (PTSD).

i. Based on current BCNR policy and guidance, the Board requested an advisory opinion from BUMED, the office having cognizance over the subject matter. The advisory opinion has commented to the effect that the request has merit and warrants favorable action. See enclosure (3).

CONCLUSION

Upon review and consideration of all the evidence of record, and especially in light of enclosure (2) and (3), the Board concludes that Petitioner's request warrants relief. The Board reviewed his application under the guidance provided in references (b) and (c). Specifically, the Board considered whether his application was the type that was intended to be covered by this policy.

The purpose of the Secretary of Defense memorandum is to ease the process for veterans seeking redress and assist the Boards in reaching fair and consistent results in "these difficult cases." The memorandum describes the difficulty veterans face on "upgrading their discharges based on claims of previously unrecognized" PTSD. The memorandum further explains that since PTSD was not previously recognized as a diagnosis at the time of service for many veterans, and diagnoses were often not made until after service was completed, veterans were constrained in their arguments that PTSD should be considered in mitigation for misconduct committed or were unable to establish a nexus between PTSD and the misconduct underlying their discharge. In this regard, based upon his record of service, to include being knocked unconscious in a plane crash, Vietnam combat operations, and diagnosis of PTSD, relief in the form of his characterization of service should be changed to an honorable discharge.

The Board notes Petitioner's misconduct and does not condone his actions. However, the Board's decision is based on Petitioner's evidence as reflected in his military record and his subsequent period of misconduct upon return from Vietnam combat operations deployment. The Petitioner's assertion of PTSD was supported with a medical diagnosis and the Board concluded that the time spent in Vietnam was a causative factor in Petitioner's misconduct. The Board was able to reasonably conclude that the PTSD condition existed at the time of his misconduct, and subsequently resulted in his other than honorable discharge. After carefully considering all the evidence, the Board felt that Petitioner's assertion of PTSD should mitigate the misconduct he committed while on active duty since this condition outweighed the severity of the misconduct.

With that being determined, the Board concludes that no useful purpose is served by continuing to characterize the Petitioner's service as having been under other than honorable conditions, and re-characterization to an honorable discharge is now more appropriate. In view of the foregoing, the Board finds the existence of an injustice warranting the following corrective action.

RECOMMENDATION:

That Petitioner's naval record be corrected to show that he received an honorable discharge on 4 October 1968, vice the under other than honorable conditions discharge actually issued.

That Petitioner be issued a new Certificate of Release or Discharge from Active duty (DD Form 214).

That a copy of this report of proceedings be filed in Petitioner's naval record.

That, upon request, the Department of Veterans Affairs be informed that Petitioner's application was received by the Board on 12 August 2016.

4. It is certified that quorum was present at the Board's review and deliberations, and that the foregoing is a true and complete record of the Board's proceedings in the above entitled matter.
