1. Pursuant to the provisions of reference (a), Petitioner, a former enlisted member of the Navy filed enclosure (1) with this Board requesting that his other than honorable (OTH) characterization of service be changed in light of current guidelines as reflected in references (b) and (c). Enclosures (1) through (5) apply.

2. The Board consisting of [REDACTED] reviewed Petitioner's allegations of error and injustice on 10 October 2017, and pursuant to its regulations, determined that the corrective action indicated below should be taken on the available evidence of record. Documentary material considered by the Board consisted of the enclosures, naval records, applicable statutes, regulations, policies, post-service PTSD diagnosis, and an advisory opinion (AO) provided by Navy Bureau of Medicine and Surgery (BUMED).

3. The Board, having reviewed all the facts of record pertaining to Petitioner's allegations of error and injustice finds as follows:

- a. Before applying to this Board, Petitioner exhausted all administrative remedies available under existing law and regulations within the Department of the Navy.

b. Although enclosure (1) was not filed in a timely manner, it is in the interest of justice to waive the statute of limitations and review the application on its merits.

c. Petitioner enlisted in the Marine Corps and began a period of active service on 11 March 1991. On 18 November 1993, he received non-judicial punishment (NJP) for wrongfully use of amphetamine/methamphetamine. Subsequently, he was notified of pending administrative separation action by reason of misconduct due to drug abuse. After he consulted with counsel and waived his procedural rights, his Commanding Officer recommended discharge under other than honorable (OTH) conditions by reason of misconduct due to drug abuse. The discharge authority approved this recommendation and directed separation under other than honorable conditions by reason of misconduct. On 4 February 1994, he was discharged.

d. Petitioner submitted enclosure (3), dated 2 March 2015, as evidence of a post-service diagnosis of PTSD.

e. On 1 September 2016, Petitioner requested consideration of his case based on an assertion of an undiagnosed and untreated service connected Post-Traumatic Stress Disorder (PTSD). Based on current BCNR policy and guidance, the Board requested an advisory opinion from BUMED, the office having cognizance over the subject matter, attached as enclosure (5). The advisory opinion has commented to the effect that the request has merit and warrant favorable action. See enclosure (5).

#### CONCLUSION:

Upon review and consideration of all the evidence of record, and especially in light of enclosures (3) and (5), the Board concludes that Petitioner's request warrants relief. Additionally, the Board reviewed his application under the guidance provided in references (b) and (c). Specifically, the Board considered whether his application was the type that was intended to be covered by this policy.

The purpose of the Secretary of Defense memorandum is to ease the process for veterans seeking redress and assist the Boards in reaching fair and consistent results in "these difficult cases." The memorandum describes the difficulty veterans face on "upgrading their discharges based on claims of previously unrecognized" PTSD. The memorandum further explains that since PTSD was not previously recognized as a diagnosis at the time of service for many veterans, and diagnoses were often not made until after service was completed, veterans were constrained in their arguments that PTSD should be considered in mitigation for misconduct committed or were unable to establish a nexus between PTSD and the misconduct underlying their discharge. In this regard, based upon his record of service, to include service in Vietnam, relief in the form of his characterization of service should be changed to honorable.

The Board notes Petitioner's misconduct and does not condone his actions. However, the Board's decision is based on Petitioner's evidence as reflected in his post-service PTSD diagnosis, and subsequent drug use as attributed to his misconduct. The Board was able to reasonably conclude that the PTSD condition existed at the time of his misconduct, and subsequently resulted in his other than honorable discharge. After carefully considering all the

evidence, the Board felt that Petitioner's assertion of PTSD should mitigate the misconduct he committed while on active duty since this condition outweighed the severity of the misconduct. The Board concludes that no useful purpose is served by continuing to characterize the Petitioner's service as having been other than honorable, and recharacterization to an honorable discharge is now more appropriate. In view of the foregoing, the Board finds the existence of an injustice warranting the following corrective action.

RECOMMENDATION:

a. That Petitioner's Naval record be corrected to show that he was issued an honorable discharge on 4 February 1994, vice the other than honorable discharge actually issued on that day.

b. That Petitioner shall be issued a new DD Form 214.

c. That a copy of this Report of Proceedings be filed in Petitioner's naval record.

d. That, upon request, the Department of Veterans Affairs be informed that Petitioner's application was received by the Board on 1 September 2016.

4. It is certified that a quorum was present at the Board's review and deliberations, and that the foregoing is a true and complete record of the Board's proceedings in the above entitled matter.
