

The Board, however, substantially concurred with the AO and the PERB decision that the report is valid as written and filed, in accordance with the applicable PES Manual guidance. In this regard, the Board noted your Reporting Senior (RS) is in the best position to provide an accurate report based on your duty assignment and billet description during the reporting period, and in doing so, determined the type of report written to be appropriate in accordance with the PES Manual. The Board further noted the Reviewing Officer concurred with the RS's evaluation and nature of the report. The Board thus concluded that your request is lacking in substantial evidence of error or injustice warranting modification of this report.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,
