

characterization of service. The SA approved the CO's recommendation and directed your OTH discharge from the Navy by reason of misconduct due to drug abuse. On 15 October 1984, you were so discharged.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to upgrade your discharge character of service. The Board also considered your contention that you were a young man when the incident occurred. You would like for your time served to be recognized for good. The Board noted you did not submit any documentation or advocacy letters in support of your application to be considered for clemency consideration.

Based upon this review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by a SPCM conviction, outweighed these mitigating factors. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

10/7/2021

Executive Director
