Dear █:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted was insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 16 November 2021. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations, and policies. In addition, the Board considered the advisory opinion contained in Community Management Support Branch memorandum 1160 B328/106 of 15 October 2021; a copy of which was previously provided to you for comment.

On 24 November 2015, you entered active duty for 4 years with an End of Active Obligated Service (EAOS) of 23 November 2019.

On 5 June 2019, you were issued official change duty orders (BUPERS order: 1569) with a required obligated service to November 2022, while stationed in █, █ with an effective date of departure of October 2019. Your ultimate activity was █, █ for duty under instruction with an effective date of arrival of 13 November 2019.

On 22 July 2019, you reenlisted for 3 years with an EAOS of 21 July 2022. On 1 August 2019, a 4-month agreement to extend enlistment was created in the corporate data system with an Soft End of Active Obligated Service (SEAOS) of 21 November 2022. On 13 October 2019, you transferred to █.

You requested that your SEAOS reflect your EAOS of 22 July 2022; the Board, in its review of your entire record and application, carefully weighed all potentially mitigating factors, to include your assertions. The Board concluded that the 4-month agreement to extend enlistment was not in your OMPF; however, a 4-month extension does exist in the corporate data systems.

Furthermore, the Board concluded that you did execute BUPERS order: 1569, which required you to obligate service out to November 2022. On 22 July 2019, you reenlisted for 3 years, which did not meet the obligated service requirement; therefore, the 4-month extension of enlistment is required to satisfy your obligation. In this connection, the Board substantially concurred with the comments contained in the advisory opinion.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

12/13/2021
