Dear █ █:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted was insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 14 December 2021. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations, and policies. In addition, the Board considered the advisory opinion contained in Community Management Support Branch memorandum 1160 Ser B328/108 of 15 October 2021; a copy of which was previously provided to you for comment.

On 22 September 2014, you entered active duty for 4 years with an End of Active Obligated Service (EAOS) of 21 September 2018 and SEAOS of 21 October 2021. On 17 September 2021, you reenlisted for 6 years with an Soft End of Active Obligated Service (SEAOS) of 16 September 2027. On 15 November 2021, you transferred from █. On 1 December 2021, you arrived to █ for duty with a Projected Rotation Date (PRD) of 1 January 2025.

You requested that your immediate reenlistment contract effective 17 September 2021 reflect a term of 4 years vice 6 years. The Board, in its review of your entire record and application, carefully weighed all potentially mitigating factors, to include your assertions. However, the Board concluded that a review of the Navy Standard Integrated Personnel System (NSIPS) reveals you executed a 6-year term reenlistment contract on 17 September 2021. Corporate data systems reflects the correct EAOS date of 16 September 2027. Other than the document you provided that contained a pen change and did not contain a signature of the certifying official, no supporting documentation was provided to indicate the contract should have been for 4 years. In

this connection, the Board substantially concurred with the comments contained in the advisory opinion.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

1/22/2022
