Dear █

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your application on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 23 February 2022. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies. Additionally, the Board reviewed an advisory opinion (AO) provided by Navy Department Board of Decorations and Medals (NDBDM) dated 3 January 2022, which determined you are not entitled to the Purple Heart Award. You were previously provided a copy of the AO for comment.

You enlisted in the Marine Corps and began a period of active duty on 5 August 1951 and served in the █ Conflict in 1952 and 1953. You were discharged on 5 August 1953, with an honorable characterization of service.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with applicable statutes and regulations. These included, but were not limited to, your desire to be awarded the Purple Heart Award. The Board reviewed all attached evidence you provided with your application. The Board commends your honorable and faithful service in the Marine Corps, unfortunately, upon review of the evidence provided, the Board concurred with the NDBDM AO. Specifically, the Board lacked medical or witness evidence that you suffered a qualifying injury while in combat. As a result, the Board concluded that it did not have a basis to grant your request.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

3/7/2022

█

Executive Director
