Docket No: 6733-21

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although you did not file your application in a timely manner, the statute of limitations was waived in accordance with the 25 August 2017 guidance from the Office of the Under Secretary of Defense for Personnel and Readiness (Kurta Memo). A three-member panel of the Board, sitting in executive session, considered your application on 19 January 2022. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the Kurta Memo, the 3 September 2014 guidance from the Secretary of Defense regarding discharge upgrade requests by Veterans claiming post-traumatic stress disorder (PTSD) (Hagel Memo), and the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo). The Board also considered an advisory opinion (AO) from a qualified mental health professional dated 11 October 2021, which was previously provided to you.

You enlisted in the Navy on 20 February 1992. On 12 December 1992, you received non-judicial punishment (NJP) for two specifications of unauthorized absence (UA) totaling 69 days. Subsequently, you were notified of pending administrative separation action by reason of misconduct due to commission of a serious offense. After you waived your rights, your commanding officer (CO) forwarded your package to the separation authority (SA) recommending your discharge by reason of misconduct due to commission of a serious offense, with and other than honorable (OTH) characterization of service. The SA approved the recommendation, and on 23 September 1993, you were so discharged.

As part of the Board's review, a qualified mental health professional reviewed your request and provided the Board with an AO on 11 October 2021. The AO stated in part that based on the current available evidence, there is insufficient evidence that the Petitioner may have incurred an unfitting mental health condition during military service, and there is insufficient evidence that his misconduct could be mitigated by an unfitting mental health condition.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to your desire to upgrade your discharge and your contention that your discharge was a result of racist individuals conspiring to end your military career by harassing you, which contributed to your misconduct and resulted in you having a PTSD/Mental Health Condition. The Board also noted your contention that the misconduct in your record was falsely reported due to racism and a desire to have you discharged from the military.

Unfortunately, after careful consideration of the AO, your submission of supporting documentation, and applying liberal consideration, the Board did not find an error or injustice that warrants upgrading your characterization of service or granting clemency in the form of an upgraded characterization of service.

Based upon this review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined your misconduct as evidenced by your NJP and the AO dated 11 October 2021, outweighed these mitigating factors. Accordingly, given the totality of the circumstances, the Board determined your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

1/26/2022
