█

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 6 June 2022. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations, and policies.

The Board determined that your personal appearance, with or without counsel, would not materially add to their understanding of the issues involved. Therefore, the Board determined that a personal appearance was not necessary and considered your case based on the evidence of record.

The Board carefully considered your request to remove your 6 August 2019 Administrative Remarks (Page 11) 6105 counseling. The Board considered your contention that you were never assigned to the Body Composition Program (BCP) and that this can be verified in Marine Online. The Board, however, determined that your Page 11 6105 counseling was issued because you were not within Marine Corps height and weight standards when you conducted your initial weigh in at the Marine Security Guard School and it was not issued due to assignment to BCP. Additionally, the Board noted that you were afforded the opportunity to rebut the counseling and you chose not to. The Board thus concluded that the Page 11 entry, which complies with the 6105 requirements of MCO 1900.16, does not constitute probable material error or injustice. Accordingly, the Board found insufficient evidence to support its removal from your record.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

6/21/2022

Deputy Director
