Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your application on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 4 May 2022. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

You entered active duty with the Navy on 3 November 1982. On 22 September 1983, a summary court-martial (SCM) convicted you of 20 specifications of fraud by placing calls on another person's telephone credit card. During the period from 4 June to 4 July 1984, you received three non-judicial punishments (NJP) for two specifications of unauthorized absence (UA) totaling 19 days, two specifications of absence from appointed place of duty, and disobeying a lawful order. Subsequently, you were notified of pending administrative separation action by reason of misconduct due to a pattern of misconduct/frequent involvement with civil/military authorities. After waiving your rights, your commanding officer (CO) forwarded your package to the separation authority (SA) recommending your discharge by reason of misconduct due to a pattern of misconduct/frequent involvement with civil/military authorities with and Other Than Honorable (OTH) characterization of service. The SA approved the recommendation and, on 14 August 1984, you were so discharged.

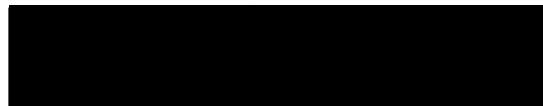

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to; your desire to upgrade your discharge and contention that you were young but now more mature. For purposes of clemency consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments, or advocacy letters.

Based upon this review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your SCM and three NJPs, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and determined that your misconduct shows a complete disregard for military authority and regulations. As a result, the Board concluded that your conduct was a significant departure from that expected from a Sailor and continues to warrant an OTH characterization. After applying liberal consideration, the Board did not find evidence of an error or injustice that warrants upgrading your characterization of service or granting clemency in the form of an upgraded characterization of service. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

5/14/2022
