Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 6 June 2022. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations and policies, as well as the 8 April 2022 decision by the Marine Corps Performance Evaluation Review Board (PERB), and the 10 March 2022 Advisory Opinion (AO) provided to the PERB by the Manpower Management Division Records and Performance Branch (MMRP-30). The PERB decision and the AO were provided to you on 8 April 2022. Although you were afforded an opportunity to submit a rebuttal, you did not do so.

The Board carefully considered your request to remove or modify your 1 January 2017 to 31 May 2017 fitness report. The Board considered your contention that your Reviewing Officer's comment recommending you for resident professional military education (PME) is erroneous because you had completed non-resident PME in 2016.

The Board, however, substantially concurred with the AO and the PERB decision that the fitness report is valid as written and filed, in accordance with the applicable Performance Evaluation System (PES) Manual guidance. In this regard, the Board noted that the PES Manual does not specifically preclude reporting officials from recommending attendance at a resident course subsequent to the completion of non-resident PME. The Board thus concluded that your request is lacking in sufficient evidence of error or injustice warranting removal or modification of the contested fitness report.

In the absence of sufficient new evidence for reconsideration, the decision of the Board is final, and your only recourse would be to seek relief, at no cost to the Board, from a court of appropriate jurisdiction.

Sincerely,

6/21/2022
