

and led to the RS' decision to assign you the contested attribute marking. In making this determination, the Board also noted that you did not suggest any irregularity with the Reviewing Officer's portion of the report. Finally, the Board noted that in accordance with the PES Manual, there is no scale to "match" the attribute markings with the Section I comments, nor is any such scale feasible or viable. The Board thus concluded that your request is lacking sufficient evidence of error or injustice warranting removal of this fitness report established in 2021. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,
