Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your application on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 27 July 2022. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

You enlisted in the Navy and began a period of active service on 13 April 1982. Based on your application, you tested positive for wrongful use of drugs. On 4 November 1983, you underwent a medical evaluation which included a substance abuse assessment. You were determined not drug/alcohol dependent and your drug use was considered to be recreational. As a result of your evaluation you were recommended to the counseling and assistance center (CAAC), to undergo substance abuse counseling/education, and you were notified assistance was available to you through your supervisor.

Unfortunately, the documents pertinent to your administrative separation are not in your official military personnel file (OMPF). Notwithstanding, the Board relies on a presumption of regularity to support the official actions of public officers and, in the absence of substantial evidence to the contrary, will presume that they have properly discharged their official duties. Your Certificate of Release or Discharge from Active Duty (DD Form 214), reveals that you were separated from the Navy on 30 December 1983 with an Other Than Honorable (OTH)

characterization of service, your narrative reason for separation is “Misconduct – Drug Abuse (Use),” your separation code is “HKK,” and your reenlistment code is “RE-4.”

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to upgrade your characterization of service and contentions that you were not given treatment for your struggle with drug abuse. For purposes of clemency consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments or advocacy letters.

Based upon this review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your substance abuse evaluation, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the fact it included a drug offense. Further, the Board noted you provided no evidence to support your contention that you were not offered proper treatment for your drug abuse. In reviewing the medical evidence, the Board noted you were evaluated by specialists and deemed not to be drug dependent. Therefore, the Board determined the Navy made the appropriate efforts to evaluate and acted in accordance with medical recommendations. Furthermore, the Board also determined that you were properly processed for administrative separation based on your positive urinalysis. As a result, the Board concluded your conduct constituted a significant departure from that expected of a Sailor and continues to warrant an OTH characterization. After applying liberal consideration, the Board did not find evidence of an error or injustice that warrants upgrading your characterization of service or granting clemency in the form of an upgraded characterization of service. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

8/16/2022
