701 S. COURTHOUSE ROAD, SUITE 1001
ARLINGTON, VA 22204-2490

Docket No: 4640-22
Ref: Signature Date

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your case on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 21 October 2022. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

The Board determined that your personal appearance, with or without counsel, would not materially add to their understanding of the issues involved. Therefore, the Board determined that a personal appearance was not necessary and considered your case based on the evidence of record.

You entered active duty with the Navy on 19 August 1985. On 4 November 1987, you were found guilty at Special Court-Martial (SPCM) for larceny of personal property, a value of \$794.00. On 9 December 1987, the Convening Authority approved and ordered execution of your SPCM sentence. Subsequently, you were notified of separation processing, on 25 February 1988, for misconduct by reason of commission of a serious offense. You waived your right to consult with military counsel and request a hearing before an administrative discharge board. The Commanding Officer recommended to the separation authority that you be discharged with

an Other Than Honorable (OTH) characterization. After the separation authority approved the recommendation, on 9 June 1988, you were discharged.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to change your characterization of service from OTH to Honorable for medical reasons. For purposes of clemency consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments or advocacy letters.

Based upon this review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your SPCM conviction, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the likely negative effect it had on the good order and discipline of the command. Finally, the Board noted that you provided no evidence to support your contentions. As a result, the Board concluded your conduct constituted a significant departure from that expected of a Sailor/Marine and continues to warrant an OTH characterization. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants upgrading your characterization of service or granting clemency in the form of an upgraded characterization of service. Accordingly, given the totality of the circumstances, the Board determined that your request does merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice

Sincerely,

11/2/2022
