Dear [REDACTED]

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 4 August 2022. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations, and policies.

You requested correction to your active military service time and associated back pay. The Board, in its review of your entire record and application, carefully weighed all potentially mitigating factors, to include your assertions. However, the Board concluded that in accordance with Department of Defense Financial Management Regulation 7000.14-R, correction to your record is not warranted. Specifically, your record reflects multiple lost time due to unauthorized absences and confinement, which are not creditable for active duty pay. The lost times are annotated on your DD Form 214s and DD Form 215 for the following periods: 28 January 1978 through 10 April 1978; 19 June 1978 through 9 August 1978; 28 September 1978 through 11 November 1978; 16 May 1979 through 30 May 1979, and 5 June 1982. Therefore, your retirement percentage multiplier appropriately reflects 15 years, 4 months, and 20 days with the Defense Finance Accounting Service.

Sincerely,

8/17/2022
