

Conditions) discharge characterization by reason of misconduct due to frequent involvement. On 26 March 1982, you were so discharged.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to your desire for a discharge upgrade and expert qualifications to be annotated on your DD Form 214. You contend that: (a) your discharge was supposed to automatically change six months following your separation from service; (b) you qualified "expert" and not "marksman" during rifle qualification. For purposes of clemency and equity consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments or advocacy letters.

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your NJPs and SCM, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the likely negative impact it had on the good order and discipline of your unit. The Board also noted that there is no provision of federal law or in Navy/Marine Corps regulations that allows for a discharge to be automatically upgraded after a specified number of months or years. As a result, the Board concluded your conduct constituted a significant departure from that expected of a Marine and continues to warrant a General (Under Honorable Conditions) characterization. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity.

Regarding your request for an expert qualification on your DD Form 214, the Board reviewed the guidance provided section e. of the Marine Corps Order 3574.2M (Marine Corps Combat Marksmanship Programs) instructions and determined that you were issued the correct marksmanship qualification based on your most recent result on 31 July 1981. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon the submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,
