

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to upgrade your discharge and contention that you were told at discharge your GEN discharge would change to Honorable after six months. For purposes of clemency and equity consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments or advocacy letters.

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that you were appropriately assigned a GEN characterization upon your discharge from the Navy. In making this finding, the Board determined that you did not qualify for an Honorable characterization of service based on your assigned conduct average of 2.0. The Board noted that Navy regulations required a minimum conduct trait average of 2.5 to qualify for a fully Honorable characterization of service. Finally, the Board noted that there is no provision of federal law or in Navy regulations that allows a discharge to be automatically upgraded after a specified number of months or years. Therefore, even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

3/24/2023
