█  
Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although you did not file your application in a timely manner, the statute of limitations was waived in accordance with the 25 August 2017 guidance from the Office of the Under Secretary of Defense for Personnel and Readiness (Kurta Memo). A three-member panel of the Board, sitting in executive session, considered your application on 11 January 2023. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the Kurta Memo, the 3 September 2014 guidance from the Secretary of Defense regarding discharge upgrade requests by Veterans claiming post-traumatic stress disorder (PTSD)/mental health condition (MHC) (Hagel Memo), and the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo). The Board also considered an advisory opinion (AO) from a qualified mental health professional, dated 16 November 2022. Although you were provided an opportunity to comment on the AO, you chose not to do so.

After two periods of honorable service, you reenlisted with the Navy on 2 February 1984. On 11 April 1996, you received non-judicial punishment (NJP) for unauthorized absence (UA) totaling 43 days, absence from appointed place of duty, missing ship's movement, and disobeying a lawful order. Subsequently, you were notified of pending administrative separation action by reason of misconduct due to commission of a serious offense. After electing to waive your rights, your commanding officer (CO) forwarded your package to the separation authority (SA) recommending your discharge by reason of misconduct due to commission of a serious offense, with an Other Than Honorable (OTH) characterization of service. The SA approved the recommendation and, on 26 April 1996, you were so discharged for commission of a serious offense.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Kurta, Hagel, and Wilkie Memos. These included, but were not limited to, your desire to upgrade your discharge and contention that you incurred Post Traumatic Stress Disorder (PTSD) during military service, which might have mitigated your discharge character of service. For purposes of clemency and equity consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments or advocacy letters.

As part of the Board's review, a qualified mental health professional reviewed your request and provided the Board with an AO on 16 November 2022. The mental health professional stated in pertinent part:

There is no evidence that Petitioner was diagnosed with a mental health condition in military service, or that he exhibited any psychological symptoms or behavioral changes indicative of a diagnosable mental health condition. Throughout his disciplinary processing, there were no concerns raised of a mental health condition that would have warranted a referral for evaluation. He has provided no medical evidence in support of his claims. Unfortunately, his personal statement is not sufficiently detailed to establish clinical symptoms or provide a nexus with his misconduct. Additional records (e.g., post service mental health records describing the Petitioner's diagnosis, symptoms, and their specific link to his misconduct) would aid in rendering an alternate opinion.

The AO concluded, "it is my considered clinical opinion there is insufficient evidence of a diagnosis of PTSD that may be attributed to military service. There is insufficient evidence his misconduct could be attributed to PTSD."

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined your misconduct, as evidenced by your NJP and lengthy period of UA, outweighed the potential mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the likely negative effect it had on the good order and discipline of the command. Further, the Board concurred with AO that there is insufficient evidence of a mental health condition that may be attributed to your military service or misconduct. Additionally, the Board noted that there is no evidence in your record, and you submitted none, to support your contention. As a result, the Board concluded your conduct constituted a significant departure from that expected of a Sailor and continues to warrant an OTH characterization. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants upgrading your characterization of service or granting an upgraded characterization of service as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when

applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

1/24/2023
