

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to upgrade your discharge and contentions that the military is responsible for your medical problems, you are currently unable to work, need Department of Veterans Affairs (DVA) benefits, and you have been a hard working law abiding citizen for over 40 years. For purposes of clemency consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments or advocacy letters.

Based upon this review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your NJPs, SPCM conviction, and request for GOS discharge, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the negative impact your conduct had on the good order and discipline of your unit. Further, the Board found no evidence to substantiate your contentions. Additionally, absent a material error or injustice, the Board declined to summarily upgrade a discharge solely for the purpose of facilitating veterans' benefits. The Board noted while commendable, your post service conduct does not excuse your conduct while enlisted in the Marine Corps or the basis for your discharge. Finally, the Board determined you already received a large measure of clemency when the Marine Corps agreed to administratively separate you for the GOS; thereby sparing you the stigma of a court-martial conviction and likely punitive discharge. As a result, the Board concluded your conduct constituted a significant departure from that expected of a Marine and continues to warrant an OTH characterization of service. After applying liberal consideration, the Board did not find evidence of an error or injustice that warrants upgrading your characterization of service or granting clemency in the form of an upgraded characterization of service. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,
