█
█
Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although you did not file your application in a timely manner, the statute of limitations was waived in accordance with the 25 August 2017 guidance from the Office of the Under Secretary of Defense for Personnel and Readiness (Kurta Memo). A three-member panel of the Board, sitting in executive session, considered your application on 13 March 2023. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the Kurta Memo, the 3 September 2014 guidance from the Secretary of Defense regarding discharge upgrade requests by Veterans claiming post-traumatic stress disorder (PTSD)/mental health condition (MHC) (Hagel Memo), and the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo). The Board also considered an advisory opinion (AO) from a qualified mental health professional dated 5 January 2023. Although you were provided an opportunity to comment on the AO, you chose not to do so.

You entered active duty with the Marine Corps on 4 August 1980. On 28 October 1982, you received non-judicial punishment (NJP) for wrongful use of marijuana. On 23 February 1983, you were counseled on your involvement in illegal drug use or possession due to a random urinary surveillance. On 16 May 1983, you were counseled on being identified as a disciplinary problem. On 27 August 1983, you attended the Drug and Alcohol orientation class. On 6 October 1983, you again received NJP for wrongful use of marijuana.

Unfortunately, the documents pertinent to your separation are not in your official military personnel file (OMPF). Notwithstanding, the Board relies on a presumption of regularity to support the official actions of public officers and, in the absence of substantial evidence to the contrary, will presume that they have properly discharged their official duties. Your Certificate of Release or Discharge from Active Duty (DD Form 214), reveals that you were separated from the Marine Corps on 15 December 1983 with an Other Than Honorable (OTH) characterization of service, your narrative reason for separation is “Misconduct (Drug Abuse),” your separation code is “HKK,” and your reenlistment code is “RE-4.”

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Kurta, Hagel, and Wilkie Memos. These included, but were not limited to, your desire to upgrade your discharge and contentions that you incurred a mental health concerns during military service, which might have mitigated your discharge character of service and, after discharge, you were diagnosed with depression and anxiety. For purposes of clemency and equity consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments or advocacy letters.

As part of the Board’s review, a qualified mental health professional reviewed your request and provided the Board with an AO on 5 January 2023. The mental health professional stated in pertinent part:

There is no evidence that he was diagnosed with a mental health condition in military service, or that he exhibited any psychological symptoms or behavioral changes indicative of a diagnosable mental health condition. He has provided no medical evidence in support of his claims. Unfortunately, his personal statement is not sufficiently detailed to establish clinical symptoms or provide a nexus with his misconduct. Additional records (e.g., post-service mental health records describing the Petitioner’s diagnosis, symptoms, and their specific link to his misconduct) would aid in rendering an alternate opinion.

The AO concluded, “it is my considered clinical opinion there is insufficient evidence of a mental health condition that may be attributed to military service. There is insufficient evidence that his misconduct could be attributed to a mental health condition.”

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined your misconduct, as evidenced by your two NJPs, outweighed the potential mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the fact it involved drug related offenses. The Board determined that illegal drug use by a service member is contrary to military core values and policy, renders such members unfit for duty, and poses an unnecessary risk to the safety of their fellow service members. The Board noted that marijuana use in any form is still against Department of Defense regulations and not permitted for recreational use while serving in the military. Further, the Board concurred with the AO that there is insufficient evidence your misconduct could be attributed a mental health condition. Additionally, the Board also noted that there is no evidence in your record, and you submitted none, to substantiate your

contentions. As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

3/24/2023
