Dear █:

This is in reference to your application for correction of your naval record pursuant to Title 10, United States Code, Section 1552. After careful and conscientious consideration of the entire record, the Board for Correction of Naval Records (Board) found the evidence submitted was insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your application on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 17 October 2022. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

You enlisted in the Marine Corps and commenced a period of active service on 10 August 1993. On 4 November 1996, you were convicted at a special court martial (SPCM) for wrongful possession of marijuana, wrongful distribution of marijuana, and wrongfully introduction of marijuana onto a military installation. On 13 March 1997, you completed substance abuse treatment. You self-reported another instance of drug use, on 25 March 1997, which resulted in notification of administrative separation proceedings by reason of misconduct due to drug abuse, and commission of a serious offense. After you waived your procedural rights, the separation authority approved and directed your separation with an Other Than Honorable (OTH) characterization. On 6 June 1997, you were discharge with an OTH character of service by reason of misconduct drug abuse.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire for a discharge upgrade and contentions that your

current character of service prevents you from receiving veterans benefits. For purposes of clemency consideration, the Board noted you provided advocacy letters but no supporting documentation describing post-service accomplishments.

Based upon this review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your SPCM, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the fact it included multiple drug offenses. The Board determined that illegal drug use by a Marine is contrary to Marine Corps core values and policy, renders such Marines unfit for duty, and poses an unnecessary risk to the safety of their fellow Marines. The Board noted that marijuana use in any form is still against Department of Defense regulations and not permitted for recreational use while serving in the military. In addition, the Board considered the aggravating nature of your drug distribution offense. Further, absent a material error or injustice, the Board declined to summarily upgrade a discharge solely for the purpose of facilitating veterans' benefits, or enhancing educational or employment opportunities. As a result, the Board concluded your conduct constituted a significant departure from that expected of a Marine and continues to warrant an OTH characterization. While the Board commends your post-discharge good character and accomplishments, even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants upgrading your characterization of service or granting clemency in the form of an upgraded characterization of service. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon the submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

11/5/2022
