701 S. COURTHOUSE ROAD, SUITE 1001
ARLINGTON, VA 22204-2490

■
Docket No. 8345-22
5628-13
Ref: Signature Date

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Because your application was submitted with new evidence not previously considered, the Board found it in the interest of justice to review your application. A three-member panel of the Board, sitting in executive session, considered your application on 15 February 2023. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

You previously applied to this Board for an upgrade to your characterization of service and were denied on 15 July 2014.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to change your discharge character of service and contentions that you are older now, you did not realize the effects that a BCD would have on your life, and you apologize for your past mistakes and desire assistance for your medical issues. For purposes of clemency and equity consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments or advocacy letters.

After thorough review, the Board concluded your potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined your misconduct as evidenced by your two NJPs, SCM conviction, and two SPCM convictions, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and concluded that it showed a complete disregard of military authority and regulations. The Board also considered the negative impact your conduct likely had on the good order and discipline of your command. Additionally, the Board found that the record clearly reflected that your active duty misconduct was intentional and willful. The Board also determined that the evidence of record did not demonstrate that you were not responsible for your conduct or that you should otherwise not be held accountable for your actions. The Board noted that you were sentenced to a BCD at an earlier court-martial but it was suspended, thus giving you the opportunity to earn a better characterization of service. However, you failed to do so and committed further misconduct. Ultimately, the Board concluded that the discharge was proper and equitable under standards of law and discipline and that the discharge accurately reflects your conduct during your period of service, which was terminated by your BCD. As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. While the Board carefully considered your contentions, even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

2/27/2023
