

DEPARTMENT OF THE NAVY BOARD FOR CORRECTION OF NAVAL RECORDS 701 S. COURTHOUSE ROAD, SUITE 1001 ARLINGTON, VA 22204-2490

> Docket No. 8976-22 8996-08 Ref: Signature Date

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Because your application was submitted with new evidence not previously considered, the Board found it in the interest of justice to review your application. A three-member panel of the Board, sitting in executive session on 13 February 2023, has carefully examined your current request. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

You previously applied to this Board for a discharge upgrade but were denied on 10 March 2009. The Board determined the mitigation evidence you submitted in support of your request was insufficient to offset the seriousness of your misconduct, which resulted in four NJPs, summary court-martial (SCM), and a discharge for the good of the service (GOS).

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited, to your desire for a discharge upgrade and contentions that you were told your characterization of service would be upgraded and you would like Department of Veterans Affairs (VA) benefits. For purposes of clemency and equity consideration, the Board noted you provided a personal statement but no supporting documentation describing postservice accomplishments or advocacy letters.

Docket No. 8976-22 8996-08

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined your misconduct, as evidenced by your four NJPs, SCM, and GOS request, outweighed the potential mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and determined that your conduct showed a complete disregard for military authority and regulations. Further, the Board noted that there is no provision of federal law or in Navy/Marine Corps regulations that allows a discharge to be automatically upgraded due solely to the passage of time or after a specified number of months or years. Additionally, absent a material error or injustice, the Board declined to summarily upgrade a discharge solely for the purpose of facilitating veterans' benefits, or enhancing educational or employment opportunities. Finally, the Board also noted that the misconduct that led to your request to be discharged in lieu of trial by court-martial was substantial and, more likely than not, would have resulted in a punitive discharge and extensive punishment at a court-martial. Therefore, the Board determined that you already received a large measure of clemency when the convening authority agreed to administratively separate you in lieu of trial by court-martial; thereby sparing you the stigma of a court-martial conviction and likely punitive discharge. As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,
