

(GEN) characterization of service, your narrative reason for separation is “Released from Active Duty,” your separation code is “MBK1,” and your reenlistment code is “RE-4.”

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to upgrade your characterization of service and your contentions that: (1) you were discharged after receiving treatment for a back injury incurred during night maneuvers in █ and, (2) you were told your discharge would be upgraded to Honorable (HON) six to twelve months post-discharge. For purposes of clemency and equity consideration, the Board noted you did not provide documentation describing post-service accomplishments or advocacy letters.

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your NJPs and SCM, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and found that your conduct showed a complete disregard for military authority and regulations. Further, the Board found no evidence to substantiate your contentions. Finally, the Board also noted that there is no provision of federal law or in Navy/Marine Corps regulations that allows for a discharge to be automatically upgraded after a specified number of months or years. As a result, the Board concluded significant negative aspects of your service outweigh the positive aspects and continues to warrant a GEN characterization. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon the submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,
