Dear ██████████:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 14 March 2023. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations, and policies. In addition, the Board considered the advisory opinion by the Branch Head, Community Management Support Branch memorandum BUPERS-328 of 31 January 2023, and your response to the opinion.

You entered active duty on 4 December 2012.

In accordance with OPNAVINST 1160.8B published on 1 April 2019, additional eligibility criteria will be published by NAVADMIN. If the current SRB NAVADMIN publishes the use of zones, the guidance regarding zones in table 1-1 must be adhered to. A member may receive only one SRB per zone during a career. When reenlisting for SRB, the reenlistment must take the member's new End of Active Obligated Service (EAOS) into the next SRB zone.

On 12 April 2019, you reenlisted for 4 years with an EAOS of 11 April 2023. Furthermore, you received a Zone B SRB.

On 21 June 2022, you were issued official change duty orders (BUPERS order: 1722) with required obligated service to June 2026, while stationed in ██████████  
██████████ with an effective date of departure of December 2022. Your ultimate activity was ██████████

█ for duty with an effective date of arrival of 30 January 2023, with a Projected Rotation Date of June 2026.

On 2 December 2022, you reenlisted for 6 years with an EAOS of 1 December 2028. On 20 December 2022, you transferred from █ and arrived to █ on 18 January 2023 for duty.

You requested to receive Zone “B” SRB for your reenlistment dated 2 December 2022. The Board, in its review of your entire record and application, carefully weighed all potentially mitigating factors, to include your assertions. However, the Board concluded that you have already received a Zone B SRB for your reenlistment on 12 April 2019, and in accordance with OPNAVINST 1160.8B, a member may receive only one SRB per zone during a career. This makes you ineligible to receive an SRB for your reenlistment of 2 December 2022. In this connection, the Board substantially concurred with the comments contained in the advisory opinion.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely, \_\_\_\_\_
