Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your application on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 3 May 2023. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

You enlisted in the U.S. Navy and began a period of active duty on 22 March 1994. Upon entry onto active duty, you were granted a waiver for your conviction for petty larceny. You also admitted to preservice marijuana use on your National Agency Questionnaire.

On 7 February 1995, you received non-judicial punishment (NJP) for three specifications of wrongful use of marijuana. In the drug screening report, your Commanding Officer (CO) reported that you were an average to below average performer with no potential for further service. It went on to state that you were identified by other service member's as having smoked marijuana and that you admitted to smoking marijuana three to four times. As a result, the Commanding Officer (CO) made his recommendation to the Separation Authority (SA) that you be discharged for misconduct due to drug abuse and be assigned an Other Than Honorable (OTH) characterization. The SA accepted the recommendation and directed you be discharged. You were so discharged on 18 September 1995.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to your desire for a discharge upgrade and contentions that at the time of separation you were told you were being separated with a General characterization, you are now looking to use your benefits to buy a home, you had a shipmate living with you and you were unaware of his marijuana use, you would not have allowed him to live with you if you were aware of his use, and the Navy took action on anyone around him due to zero tolerance. For purposes of clemency and equity consideration, the Board noted you provided advocacy letters that described post-discharge accomplishments.

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your NJP, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the fact it included multiple drug offenses. The Board determined that illegal drug use by a service member is contrary to military core values and policy, renders such members unfit for duty, and poses an unnecessary risk to the safety of their fellow service members. The Board noted that marijuana use in any form is still against Department of Defense regulations and not permitted for recreational use while serving in the military. Further, the Board was not persuaded by your contentions and noted that evidence in your record directly contradicts your version of events. Finally, absent a material error or injustice, the Board declined to summarily upgrade a discharge solely for the purpose of facilitating veterans' benefits, or enhancing educational or employment opportunities. As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. While the Board commends your post-discharge good character and carefully considered the evidence you submitted in mitigation, even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Ultimately, the Board concluded the mitigation evidence you provided was insufficient to outweigh the seriousness of your misconduct. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

5/10/2023
