█

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although you did not file your application in a timely manner, the statute of limitation was waived in accordance with the 25 August 2017 guidance from the Office of the Under Secretary of Defense for Personnel and Readiness (Kurta Memo). A three-member panel of the Board, sitting in executive session, considered your application on 6 November 2023. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the Kurta Memo, the 3 September 2014 guidance from the Secretary of Defense regarding discharge upgrade requests by Veterans claiming post-traumatic stress disorder (PTSD) (Hagel Memo), and the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo). The Board also considered the advisory opinion (AO) furnished by a qualified mental health professional. Although you were afforded an opportunity to submit an AO rebuttal, you chose not to do so.

You enlisted in the Navy and commenced active duty on 1 February 2001

On 22 August 2001, you received non-judicial punishment (NJP) for unauthorized absence (UA). Additionally, you were issued an administrative remarks (Page 13) counseling concerning deficiencies in your performance and/or conduct. You were advised that any further deficiencies in your performance and/or conduct may result in disciplinary action and in processing for administrative discharge. On 21 November 2001, you were found guilty at Summary Court-Martial (SCM) of wrongful use of marijuana. Subsequently, you were notified of pending administrative separation processing with an Other Than Honorable (OTH) discharge by reason

of misconduct due to drug abuse and you waived your right to consult counsel, submit a statement, or have your case heard by an administrative discharge board. The Separation Authority subsequently directed your discharge with an OTH characterization of service and you were so discharged on 15 Dec 2003.

Post-discharge, you applied to the Naval Discharge Review Board (NDRB) for a discharge upgrade. The NDRB denied your request for an upgrade, on 5 February 2015, based on their determination that your discharge was proper as issued.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Kurta, Hagel, and Wilkie Memos. These included, but were not limited to, your desire to change your discharge characterization of service and your contention that undiagnosed Post-Traumatic Stress Disorder (PTSD) contributed to your misconduct. For purposes of clemency and equity consideration, the Board considered the advocacy letter and Department of Veterans Affairs document you provided.

As part of the Board's review process, a qualified mental health professional reviewed your contentions and the available records and issued an AO dated 21 September 2023. The AO noted in pertinent part:

There is no evidence that he was diagnosed with a mental health condition in military service, or that he exhibited any psychological symptoms or behavioral changes indicative of a diagnosable mental health condition. Post-service, the VA has granted service connection for treatment purposes for a mental health condition that is temporally remote to military service. Unfortunately, his personal statement is not sufficiently detailed to establish clinical symptoms in service or provide a nexus with his misconduct. There is no evidence of a diagnosis of PTSD. Additional records (e.g., post-service mental health records describing the Petitioner's diagnosis, symptoms, and their specific link to his misconduct) may aid in rendering an alternate opinion.

The AO concluded, "it is my clinical opinion there is insufficient evidence of a diagnosis of PTSD that may be attributed to military service. There is post-service evidence from the VA of a mental health condition that may be attributed to military service. There is insufficient evidence to attribute his misconduct to PTSD or another mental health condition."

After thorough review, the Board concluded your potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your NJP and SCM, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the fact it involved a drug offense. The Board determined that illegal drug use by a service member is contrary to military core values and policy, renders such members unfit for duty, and poses an unnecessary risk to the safety of their fellow service members. The Board noted that marijuana use in any form is still against Department of Defense regulations and not permitted for recreational use while serving in the military. The Board also considered the likely negative impact your repeated misconduct had on

the good order and discipline of your command. Additionally, the Board noted that you were given the opportunity to address your conduct issues but you continued to commit misconduct. Finally, the Board concurred with the AO and determined that there is no evidence that you were diagnosed with a mental health condition in military service, or that you exhibited any psychological symptoms or behavioral changes indicative of a diagnosable mental health condition. As the AO noted, your personal statement is not sufficiently detailed to establish clinical symptoms in service or provide a nexus with your misconduct. The Board agreed that there is insufficient evidence of a diagnosis of PTSD that may be attributed to military service and insufficient evidence to attribute your misconduct to PTSD or another mental health condition.

As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. While the Board carefully considered the evidence you submitted in mitigation and commends your recent sobriety, even in light of the Kurta, Hagel, and Wilkie Memos and reviewing the record liberally and holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Ultimately, the Board concluded the mitigation evidence you provided was insufficient to outweigh the seriousness of your misconduct. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

11/21/2023
