Dear ██████████

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your case on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 9 January 2024. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations, and policies. In addition, the Board considered the advisory opinion contained in Headquarters U.S. Marine Corps letter 1000 MMRP-13 of 27 July 2023, which was previously provided to you for comment.

You requested for your DD Form 214MC, Report of Separation from Active Duty ending 26 April 1974 reflect service in ██████████. The Board, in its review of your entire record and application, carefully weighed all potentially mitigating factors, to include your assertions. The Board concluded that Marine Corps Order Publication 1900.16A, specified only time spent on foreign service during current period of active duty will be annotated on the DD Form 214MC, Block 18f. However, service performed outside the continental United States while on maneuvers will not be included in aforementioned block.

In reviewing your record, the Board determined your DD Form 214MC, Block 18f reflects your foreign service while assigned to duty in ██████████. The Board could not find, nor did you provide sufficient evidence of service in ██████████. Therefore, the Board determined that a change to your record is not warranted. In this connection, the Board substantially concurred with the comments contained in the advisory opinion.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

1/16/2024
