

DEPARTMENT OF THE NAVY
BOARD FOR CORRECTION OF NAVAL RECORDS
701 S. COURTHOUSE ROAD, SUITE 1001
ARLINGTON, VA 22204-2490

█
Docket No. 5626-23

Ref: Signature Date

█
Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Because your application was submitted with new evidence not previously considered, the Board found it in the interest of justice to review your application. A three-member panel of the Board, sitting in executive session, considered your application on 20 September 2023. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

You previously applied to this Board for an upgrade to your characterization of service. You were denied relief on 12 November 2009 and 12 April 2023.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to change your discharge character of service and contentions that: (1) you were exposed to contaminated water while stationed at █, (2) your mental health and medical condition that you suffer from could be directly related to, a result of, or a contributing factor of the long lasting effects and exposure to the ingestion of the contaminated water, (3) you suffer daily mentally and physically from having "depression, anxiety, PTSD, adjustment disorder, heart conditions, kidney disease, aneurysms, high blood pressure," (4) you did not receive the proper counseling when you were discharged from the

military, and (5) you are in desperate need of professional healthcare assistance, and continued mental health services. Additionally, the Board noted you checked the “Other Mental Health” box on your application but chose not to respond to the 10 July 2023 letter from the Board requesting evidence in support of your claim. For purposes of clemency and equity consideration, the Board noted you provided a personal statement on your behalf, documentation from the Department of Veterans Affairs, and health care documents but no documentation describing post-service accomplishments or advocacy letters.

After thorough review, the Board concluded your potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined your misconduct as evidenced by your SPCM conviction, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and concluded that it showed a complete disregard of military authority and regulations. The Board also considered the negative impact your conduct likely had on the good order and discipline of your unit. The Board found that the record clearly reflected that your active duty misconduct was intentional and willful. Further, the Board also determined that the evidence of record did not demonstrate that you were not responsible for your conduct or that you should otherwise not be held accountable for your actions. Ultimately, the Board concluded that the discharge was proper and equitable under standards of law and discipline and that the discharge accurately reflects your conduct during your period of service, which was terminated by your BCD. As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant a BCD. While the Board carefully considered the evidence you submitted in mitigation, even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Ultimately, the Board concluded the mitigation evidence you provided was insufficient to outweigh the seriousness of your misconduct. Accordingly, given the totality of the circumstances, the Board determined your request does not merit relief.

Finally, be advised regarding your assertion of medical problems from toxins from Camp Lejeune, Public Law 112-154, Honoring America’s Veterans and Caring for Camp Lejeune Families Act of 2012, requires the Veterans Administration to provide health care to Veterans with one or more of 15 specified illnesses or conditions. You should contact the nearest office of the Department of Veterans Affairs (DVA) concerning your right to apply for benefits or appeal an earlier unfavorable determination.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when

applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

10/3/2023
