

DEPARTMENT OF THE NAVY
BOARD FOR CORRECTION OF NAVAL RECORDS
701 S. COURTHOUSE ROAD, SUITE 1001
ARLINGTON, VA 22204-2490

█
Docket No. 7280-23
Ref: Signature Date

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 26 September 2023. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations, and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, as well as the 14 July 2023 decision furnished by the Marine Corps Performance Evaluation Review Board (PERB), and the 26 April 2023 advisory opinion (AO) provided to the PERB by the Manpower Management Division Records and Performance Branch (MMRP-30). The AO was provided to you on 14 July 2023 and although you were afforded an opportunity to submit a rebuttal, you chose not to do so.

The Board carefully considered your request to remove the fitness report for the reporting period 4 October 2021 to 23 November 2021. The Board considered your contention that there is no documentation in your record to support the fitness report adversity for failing the physical fitness test (PFT).

The Board, however, substantially concurred with the AO and PERB's decision that your fitness report is valid as written and filed, in accordance with the applicable Marine Corps Performance Evaluation System (PES) Manual. In this regard, according to the PES Manual, PFT's taken for Command General or Inspector General Inspections or as part of formal school or course induction will be appropriately recorded in item 8b of the fitness report. In addition, a failure in any of the PFT's renders the report adverse. The Board determined that your contested fitness report was properly rendered adverse for failing the PFT. Moreover, formal schools are not

administratively positioned to record failed PFT scores in the Marine Corps Total Force System and the PES Manual does not require the submission of any additional documentation to render a fitness report adverse due to PFT failure. As a result, the Board concluded that there is no probable material error, substantive inaccuracy, or injustice warranting removal of the fitness report from your record. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

10/4/2023
