Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your case on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 12 January 2024. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo).

You enlisted in the Marine Corps and commenced a period of active duty on 26 March 1982. During your period of active duty, you were counseled regarding your conduct on two occasions, found guilty at one summary court martial (SCM) for unauthorized absence (UA) and wrongful use of marijuana and cocaine, and twice received non-judicial punishment (NJP) for UA. You were evaluated regarding your drug abuse, and you stated your use of misconduct was “experimental.” Consequently, you were notified of the initiation of administrative separation proceedings as a result of misconduct due to drug abuse. The separation authority approved and directed your discharge, with an Other Than Honorable (OTH) character of service by reason of misconduct due to drug abuse. On 26 October 1983, you were so discharged.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to your desire to upgrade your discharge characterization and your contentions that your OTH has been a blemish on your life, you could have been offered treatment while in service, and you were treated for your addiction following your discharge.

For purposes of clemency and equity consideration, the Board noted you did not provide documentation describing post-service accomplishments or advocacy letters.

After thorough review, the Board concluded your potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your NJPs, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the fact it included drug offenses. The Board determined that drug offenses are contrary to military core values and policy, renders such members unfit for duty, and poses an unnecessary risk to the safety of their fellow service members. Further, the Board noted that regulatory guidelines state a command is under no obligation to send a service member to alcohol/drug rehabilitation treatment unless it was determined, by competent medical authority, that the service member is alcohol/drug dependent. As discussed earlier, there is no documentation in the record that shows you were alcohol/drug dependent. As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

2/5/2024
