Dear █

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 30 January 2024. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations, and policies.

You requested O3E basic allowance for housing allowance adjustments from 2020 to present, the Board, in its review of your entire record and application, carefully weighed all potentially mitigating factors, to include your assertions. However, the Board concluded that in accordance with DoD 7000.14-R FMR Volume 7A, Chapter 1, commissioned officers in pay grades O-1, O-2, or O-3 who are credited with over 4 years (i.e., at least 4 years and 1 day) of prior active service as an enlisted member are entitled to the special rate of basic pay for pay grade O-1E, O-2E, or O-3E. Your prior enlisted service totaled 3 years, 10 months, and 20 days of active duty service, therefore the Board determined that you are not entitled to the special rate of basic pay for pay grade O-3E.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

2/2/2024
