

AIR FORCE DISCHARGE REVIEW BOARD DECISIONAL DOCUMENT**SUMMARY:**

The applicant was discharged on 01 June 2022 in accordance with Air Force Instruction 36-3208, *Administrative Separation of Airman* with an Entry Level Separation for Failed Medical/Physical Procurement Standards. The applicant appealed for an upgrade of his reenlistment eligibility code.

The applicant was not represented by counsel.

The applicant requested the board be completed based on a records only review. The Board was conducted on 27 July 2023.

The attached examiner's brief (provided to applicant only), extracted from available service records, contains pertinent data regarding the circumstances and character of the applicant's military service.

DISCUSSION: The Discharge Review Board (DRB), under its responsibility to examine the propriety and equity of an applicant's discharge, is authorized to change the characterization of service and the narrative reason for discharge if such changes are warranted. If applicable, the board can also change the applicant's reenlistment eligibility code. In reviewing discharges, the board presumes regularity in the conduct of governmental affairs unless there is substantial credible evidence to rebut the presumption, to include evidence submitted by the applicant. The Board completed a thorough review of the circumstances that led to the discharge and the discharge process to determine if the discharge met the pertinent standards of equity and propriety.

The documentary evidence the Board considered as part of the review includes, but is not limited to the DD Form 293, *Application for the Review of Discharge from the Armed Forces of the United States* and any additional documentation submitted by applicant and/or counsel; the applicant's personnel file from the Automated Records Management System (ARMS); and the DRB Brief detailing the applicant's service information and a summary of the case.

The applicant requested a change to the reentry code because he is now medically cleared for physical activities. He requested another chance to serve.

After a thorough review of the applicant's record and an advisory from medical staff, the Board determined that sufficient evidence existed to warrant an upgrade of the reentry code.

FINDING: The DRB voted unanimously to *approve* the applicant's request to upgrade his reenlistment eligibility code to "3K." The Board did not change the discharge characterization or narrative reason.

Should the applicant wish to appeal this decision, the applicant must request a personal appearance before this Board before applying for relief to the Air Force Board for Correction of Military Records (AFBCMR). In accordance with DAFI 36-2603, *Air Force Board for Correction of Military Records*, all applicants before the AFBCMR must first exhaust available administrative avenues of relief before applying to the AFBCMR, otherwise their AFBCMR case will be administratively closed until such time that the applicant avails themselves of the available avenue of relief. Therefore, should the applicant wish to appeal this decision, they must first exercise their right to make a personal appearance before the AFDRB.

CONCLUSION: After a thorough review of the available evidence, to include the Applicant's issues, summary of service, service/medical record entries, and discharge process, the Board found the discharge was equitable. Therefore, the awarded characterization of service shall remain "Entry Level Separation," the narrative reason for separation shall remain "Failed Medical/Physical Procurement Standards," and the reenry code shall change to "3K." The Air Force DRB (AFDRB) results were approved by the board president on 28 July 23. If desired, the applicant can request a list of the board members and their votes by writing to:
