

ARMY BOARD FOR CORRECTION OF MILITARY RECORDS

RECORD OF PROCEEDINGS

IN THE CASE OF: [REDACTED]

BOARD DATE: 10 May 2024

DOCKET NUMBER: AR20230010397

APPLICANT REQUESTS: an upgrade of his uncharacterized discharge.

APPLICANT'S SUPPORTING DOCUMENT(S) CONSIDERED BY THE BOARD:
DD Form 149 (Application for Correction of Military Record), 7 July 2023

FACTS:

1. The applicant did not file within the 3-year time frame provided in Title 10, U.S. Code, Section 1552(b); however, the Army Board for Correction of Military Records (ABCMR) conducted a substantive review of this case and determined it is in the interest of justice to excuse the applicant's failure to timely file.
2. The applicant states, in effect, he was discharged due to having issues with his feet.
 - a. He was 19 years old when he enlisted, he wanted to serve and better himself. He did not come in and cause problems, other than him having physical problems with his feet. He tried to push himself, and believed by pushing he could be recycled in basic combat training to allow his feet to heal. The process of exiting the Army was done so fast and the next thing he knew he had exited with an other than honorable discharge.
 - b. Since leaving the service, he has been a productive citizen, he owns his own business of welding and fabrication, which is doing well.
3. The applicant entered active duty for training as a member of the U.S. Army Reserve on 2 February 1993.
4. The complete facts and circumstances surrounding the applicant's discharge are unavailable for the Board to review.
5. On 13 April 1994, he was discharged under the provisions of Army Regulation 635-200 (Personnel Separations – Enlisted Personnel), paragraph 5-11, by reason of failure to meet procurement medical fitness standards. His DD Form 214 (Certificate of Release or Discharge from Active Duty) shows in:

- item 11 (Primary Specialty): None
- item 13 (Decorations, Medals, Badges, Citations and Campaign Ribbons Awarded or Authorized): Marksman Marksmanship Qualification Badge with Rifle Bar (M-16)
- item 14 (Military Education): None
- item 24 (Character of Service): uncharacterized

6. Soldiers are considered to be in an entry-level status when they are within their first 180 days of active-duty service. An uncharacterized discharge is not meant to be a negative reflection of a Soldier's military service. It simply means the Soldier was not in the Army long enough for his or her character of service to be rated as honorable or otherwise.

BOARD DISCUSSION:

1. After reviewing the application and all supporting documents, the Board found that relief was not warranted. The Board carefully considered the applicant's record of service, documents submitted in support of the petition and executed a comprehensive review based on law, policy and regulation. The governing regulation provides that a separation will be described as an entry-level separation, with service uncharacterized, if the separation action is initiated while a Soldier is in entry-level status. Soldiers in the U.S. Army Reserve are authorized an honorable discharge while in entry-level status only if they complete their active duty schooling and earn their designated military occupational specialty. The applicant did not complete training and was released from active duty due to failure to meet procurement medical fitness standards. The Board determined his DD Form 214 properly shows the appropriate characterization of service as uncharacterized.

2. An uncharacterized discharge is not meant to be a negative reflection of a Soldier's military service. It merely means the Soldier has not been in the Army long enough for his or her character of service to be rated as honorable or otherwise. As a result, there is no basis for granting the applicant's request.

REFERENCES:

1. Title 10, U.S. Code, Section 1552(b), provides that applications for correction of military records must be filed within 3 years after discovery of the alleged error or injustice. This provision of law also allows the ABCMR to excuse an applicant's failure to timely file within the 3-year statute of limitations if the ABCMR determines it would be in the interest of justice to do so.

2. Army Regulation 635-200 (Personnel Separations – Enlisted Personnel) sets forth the basic authority for the separation of enlisted personnel.

a. Chapter 3 provides that a separation will be described as entry level with uncharacterized service if the Soldier has less than 180 days of continuous active duty service at the time separation action is initiated.

b. Paragraph 3-7a provides that an honorable discharge is a separation with honor and entitles the recipient to benefits provided by law. The honorable characterization is appropriate when the quality of the member's service generally has met the standards of acceptable conduct and performance of duty for Army personnel or is otherwise so meritorious that any other characterization would be clearly inappropriate.

c. Paragraph 3-9, in effect at the time of the applicant's separation, provided that a separation would be described as entry level with uncharacterized service if processing was initiated while a Soldier was in an entry-level status, except when:

(1) a discharge under other than honorable conditions was authorized, due to the reason for separation and was warranted by the circumstances of the case; or

(2) the Secretary of the Army, on a case-by-case basis, determined a characterization of service as honorable was clearly warranted by the presence of unusual circumstances involving personal conduct and performance of duty. This characterization was authorized when the Soldier was separated by reason of selected changes in service obligation, for convenience of the government, and under Secretarial plenary authority.

d. Paragraph 5-11 provides that Soldiers who are not medically qualified under procurement medical fitness standards when accepted for enlistment or who become medically disqualified under these standards prior to entrance on active duty, active duty for training, or initial entry training will be separated. A medical proceeding, regardless of the date completed, must establish that a medical condition was identified by appropriate medical authority within 6 months of the Soldier's initial entrance on active duty, that the condition would have permanently or temporarily disqualified the Soldier for entry into military service had it been detected at that time, and the medical

condition did not disqualify the Soldier from retention in the service. The character of service for Soldiers separated under this provision would normally be honorable but would be uncharacterized if the Soldier was in an entry-level status.

3. On 25 July 2018, the Under Secretary of Defense for Personnel and Readiness issued guidance to Military Discharge Review Boards and Boards for Correction of Military/Naval Records (BCM/NR) regarding equity, injustice, or clemency determinations. Clemency generally refers to relief specifically granted from a criminal sentence. BCM/NRs may grant clemency regardless of the type of court-martial. However, the guidance applies to more than clemency from a sentencing in a court-martial; it also applies to other corrections, including changes in a discharge, which may be warranted based on equity or relief from injustice.

a. This guidance does not mandate relief, but rather provides standards and principles to guide Boards in application of their equitable relief authority. In determining whether to grant relief on the basis of equity, injustice, or clemency grounds, Boards shall consider the prospect for rehabilitation, external evidence, sworn testimony, policy changes, relative severity of misconduct, mental and behavioral health conditions, official governmental acknowledgement that a relevant error or injustice was committed, and uniformity of punishment.

b. Changes to the narrative reason for discharge and/or an upgraded character of service granted solely on equity, injustice, or clemency grounds normally should not result in separation pay, retroactive promotions, and payment of past medical expenses or similar benefits that might have been received if the original discharge had been for the revised reason or had the upgraded service characterization.
