REFERENCE:

AR 140-185 (Training and Retirement Point Credits and Unit Level Strength and Accounting Records) prescribes the types of training and activities for which retirement points are authorized and the procedures for recording retirement point credits and training for U.S. Army Reserve (USAR) Soldiers. A qualifying year of service for non-regular retired pay is a full year during which a Reserve Component (RC) member is credited with a minimum of 50 retirement points. Except as otherwise provided by law, an accumulation of 20 such years is one requirement necessary to qualify for non-regular retired pay. The Anniversary Year Ending (AYE) date is the annual date that a Soldier's retirement point record is closed out. It is utilized when referring to retirement points accounting. The AYE is much like a Reserve Soldier's "Anniversary" date and is a primary date captured in the Retirement Points Accounting System (RPAS). The anniversary year periods listed on the DA Form 5016 are calculated from an anniversary date. The criteria for establishing the service requirement for a satisfactory year of service for non-regular retirement per Department of Defense Instruction 1215.07 and changing the anniversary year ending date are as follows:

a. The full-year periods used for the crediting of qualifying years for non-regular retirement must be based on the anniversary years. Anniversary year periods are calculated from an anniversary date. The anniversary date is the date the service member entered active service or active status in a RC.

b. Paragraph 2–2, states retirement points may be earned by USAR Soldiers for Active Duty (AD), or while in an active Reserve status, for ADT, initial active duty for training (IADT), involuntary active duty for training (involuntary ADT), annual training (AT), and IDT. Types of IDT are:

- regularly scheduled unit training includes Unit Training Assemblies (UTA), and MUTA
- Regularly Scheduled Training (RST) other than UTA/MUTA
- make up assemblies for missed UTA/MUTA due to AT
- Equivalent Training (ET) in lieu of scheduled UTA/MUTA or RST
- additional training assemblies (ATA)
- two-hour unit training assemblies
- training of individual Soldiers in non-pay status.

c. Paragraph 2–4 states, personnel on AD, ADT, IADT, involuntary ADT, or AT are awarded 1 point for each calendar day they serve in one of these categories and may not be awarded additional points for other activities while in such status. Most types of IDT are covered by one of the following rules on required duration of IDT and calendar day limitations on points:

- one point for each scheduled 4-hour period of IDT at UTA, RST, ET, ATA, or make up assembly maximum of 2 points in 1 calendar day
- one point for each 2 hour or greater period
- two-hour aggregates of shorter periods may be used, except in the case of 2-hour unit training assembly's maximum of 1 point in 1 calendar day
- one point for each 2 hour or greater period
- two-hour aggregates of shorter periods may be used except in the case of 2-hour unit training assemblies
- award of a second point in the same day requires additional hours to bring the day's total to a minimum of 8, maximum of 2 points in 1 calendar day
- points may not be awarded under more than one of the rules above during any single calendar day
- Soldiers may not perform more than 48 BAs per fiscal year. Soldiers must perform RST within 60 days of the missed BA.
