

ARMY BOARD FOR CORRECTION OF MILITARY RECORDS

RECORD OF PROCEEDINGS

IN THE CASE OF: [REDACTED]

BOARD DATE: 6 May 2025

DOCKET NUMBER: AR20240011608

APPLICANT REQUESTS: upgrade of his under other than honorable conditions (UOTHC) characterization of service to honorable

APPLICANT'S SUPPORTING DOCUMENT(S) CONSIDERED BY THE BOARD:

DD Form 149 (Application for Correction of Military Record)

FACTS:

1. The applicant did not file within the three-year time frame provided in Title 10, U.S. Code (USC), Section 1552 (b); however, the Army Board for Correction of Military Records (ABCMR) conducted a substantive review of this case and determined it is in the interest of justice to excuse the applicant's failure to timely file.
2. The applicant states that he is asking for benefits due to having post-traumatic stress disorder (PTSD) and anxiety. He was young and dumb when he went absent without leave (AWOL) when his girlfriend had a baby. He would like any health, mental health, and Veterans Affairs (VA) benefits he can receive.
3. The applicant enlisted in the Regular Army on 29 July 1987.
4. Court-martial charges were preferred against the applicant on 26 March 1990 for violations of the Uniform Code of Military Justice (UCMJ). The DD Form 458 (Charge Sheet) shows that on or about 9 February 1990, without authority, he absented himself from his organization, and did remain so absent until on or about 19 March 1990.
5. On 26 March 1990, the applicant consulted with legal counsel and was advised of the basis for the contemplated trial by court-martial; the maximum permissible punishment authorized under the UCMJ; the possible effects of a bad conduct discharge; and the procedures and rights that were available to him.
 - a. Subsequent to receiving legal counsel, the applicant voluntarily requested discharge under the provisions of Army Regulation 635-200 (Personnel Separations – Enlisted Personnel), Chapter 10, request for discharge in lieu of trial by courts-martial.

In his request for discharge, he acknowledged his understanding that by requesting discharge, he was admitting guilt to the charge against him, or of a lesser included offense that also authorized the imposition of a bad conduct or dishonorable discharge.

b. He further acknowledged he understood that if his discharge request was approved, he could be deprived of many or all Army benefits, he could be ineligible for many or all benefits administered by the Veterans Administration, and he could be deprived of his rights and benefits as a Veteran under both Federal and State laws. He did not submit a statement in his own behalf.

6. The applicant's commander recommended approval of the request for discharge on 5 April 1990.

7. The separation authority approved his request for discharge in lieu of trial by court-martial on 11 April 1990 and directed his discharge UOTHC.

8. The applicant was discharged on 9 May 1990. His DD Form 214 (Certificate of Release of Discharge from Active Duty) confirms he was discharged under the provisions of Army Regulation 635-200, Chapter 10, in lieu of trial by court-martial. He completed 2 years, 7 months, and 1 day of net active service this period.

9. In reaching its determination, the Board can consider the applicant's petition, arguments and assertions, and service record in accordance with the published equity, injustice, or clemency guidance.

10. MEDICAL REVIEW:

a. The applicant is applying to the ABCMR requesting an upgrade of his under other than honorable conditions (UOTHC) discharge. He contends he was experiencing mental health conditions including PTSD that mitigate his misconduct. The specific facts and circumstances of the case can be found in the ABCMR Record of Proceedings (ROP). Pertinent to this advisory are the following: 1) The applicant enlisted in the Regular Army on 29 July 1987; 2) Court-martial charges were preferred against the applicant on 26 March 1990 for being AWOL from 9 February-19 March 1990; 3) On 9 May 1990, the applicant was discharged, Chapter 10- in lieu of court-martial. His service was characterized as UOTHC. He completed 2 years, 7 months, and 1 day of net active service.

b. The Army Review Board Agency (ARBA) Medical Advisor reviewed the available supporting documents and the applicant's available military service records. The VA's Joint Legacy Viewer (JLV) was also examined. No additional medical documentation was provided for review.

c. The applicant asserts he was experiencing mental health conditions including PTSD, which mitigate his misconduct. There is insufficient evidence the applicant reported or was diagnosed with a mental health condition, including PTSD during his active service.

d. A review of JLV provided insufficient evidence the applicant has ever been diagnosed with a mental health condition including PTSD by the VA, and he does not receive any service-connected disability for a mental health condition including PTSD.

e. Based on the available information, it is the opinion of the Agency Medical Advisor that there is insufficient evidence to support the applicant had a mental health condition or experience that mitigates his misconduct.

f. Kurta Questions:

(1) Did the applicant have a condition or experience that may excuse or mitigate the misconduct? Yes, the applicant asserts he experienced mental health conditions including PTSD which mitigate his misconduct.

(2) Did the condition exist or experience occur during military service? Yes, the applicant asserts he experienced mental health conditions including PTSD that mitigate his misconduct while on active service.

(3) Does the condition or experience actually excuse or mitigate the misconduct? No, there is insufficient evidence beyond self-report the applicant was experiencing a mental health condition including PTSD, while he was on active service. The applicant did go AWOL, which could be avoidant behavior and a natural sequela to some mental health conditions including PTSD. However, the presence of misconduct is not sufficient evidence of the presence of a mitigating mental health condition during active service. Yet, the applicant contends he was experiencing a mental health condition or an experience that mitigates his misconduct, and per Liberal Consideration the contention alone is sufficient for the board's consideration.

BOARD DISCUSSION:

After reviewing the application and all supporting documents, to include the DoD guidance on liberal consideration when reviewing discharge upgrade requests, the Board determined relief was not warranted. The applicant's contentions, the military record, and regulatory guidance were carefully considered. Based upon the misconduct leading to the applicant's separation and the following findings outlined in the medical review:

(1) Did the applicant have a condition or experience that may excuse or mitigate the misconduct? Yes.

(2) Did the condition exist or experience occur during military service? Yes.

(3) Does the condition or experience actually excuse or mitigate the misconduct?
No,

the Board concluded there was insufficient evidence of an error or injustice warranting a change to the applicant's characterization of service.

BOARD VOTE:

:	:	:	GRANT PARTIAL RELIEF
:	:	:	GRANT FORMAL HEARING

BOARD DETERMINATION/RECOMMENDATION:

The evidence presented does not demonstrate the existence of a probable error or injustice. Therefore, the Board determined the overall merits of this case are insufficient as a basis for correction of the records of the individual concerned.

CHAIRPERSON

I certify that herein is recorded the true and complete record of the proceedings of the Army Board for Correction of Military Records in this case.

REFERENCES:

1. Title 10, U.S. Code, section 1552(b), provides that applications for correction of military records must be filed within 3 years after discovery of the alleged error or injustice. This provision of law also allows the ABCMR to excuse an applicant's failure to timely file within the 3-year statute of limitations if the ABCMR determines it would be in the interest of justice to do so.

2. Section 1556 of Title 10, U.S. Code, requires the Secretary of the Army to ensure that an applicant seeking corrective action by ARBA be provided with a copy of any correspondence and communications (including summaries of verbal communications) to or from the Agency with anyone outside the Agency that directly pertains to or has material effect on the applicant's case, except as authorized by statute. ARBA medical advisory opinions and reviews are authored by ARBA civilian and military medical and behavioral health professionals and are therefore internal agency work product. Accordingly, ARBA does not routinely provide copies of ARBA Medical Office recommendations, opinions (including advisory opinions), and reviews to Army Board for Correction of Military Records applicants (and/or their counsel) prior to adjudication.

3. Army Regulation 15-185 (ABCMR) prescribes the policies and procedures for correction of military records by the Secretary of the Army, acting through the ABCMR. Paragraph 2-9 states the ABCMR begins its consideration of each case with the presumption of administrative regularity. The applicant has the burden of proving an error or injustice by a preponderance of the evidence.

4. Army Regulation 635-200 (Personnel Separations – Enlisted Personnel) sets forth the basic authority for the separation of enlisted personnel. The version in effect at the time provided that:

a. An honorable discharge is a separation with honor and entitles the recipient to benefits provided by law. The honorable characterization is appropriate when the quality of the member's service generally has met the standards of acceptable conduct and performance of duty for Army personnel or is otherwise so meritorious that any other characterization would be clearly inappropriate.

b. A general discharge is a separation from the Army under honorable conditions. When authorized, it is issued to a Soldier whose military record is satisfactory but not sufficiently meritorious to warrant an honorable discharge.

c. Chapter 10 provided that a member who had committed an offense or offenses, for which the authorized punishment included a punitive discharge, could submit a request for discharge for the good of the service in lieu of trial by court-martial. The request could be submitted at any time after charges had been preferred and must have

included the individual's admission of guilt. Although an honorable or general discharge was authorized, a UOTHC discharge was normally considered appropriate.

5. On 3 September 2014 the Secretary of Defense directed the Service Discharge Review Boards (DRB) and Service Boards for Correction of Military/Naval Records (BCM/NR) to carefully consider the revised post-traumatic stress disorder (PTSD) criteria, detailed medical considerations and mitigating factors when taking action on applications from former service members administratively discharged under other than honorable conditions and who have been diagnosed with PTSD by a competent mental health professional representing a civilian healthcare provider in order to determine if it would be appropriate to upgrade the characterization of the applicant's service.

6. On 25 July 2018, the Under Secretary of Defense for Personnel and Readiness issued guidance to Military Discharge Review Boards and Boards for Correction of Military/Naval Records (BCM/NR) regarding equity, injustice, or clemency determinations. Clemency generally refers to relief specifically granted from a criminal sentence. BCM/NRs may grant clemency regardless of the type of court-martial. However, the guidance applies to more than clemency from a sentencing in a court-martial; it also applies to other corrections, including changes in a discharge, which may be warranted based on equity or relief from injustice.
