

ARMY BOARD FOR CORRECTION OF MILITARY RECORDS

RECORD OF PROCEEDINGS

IN THE CASE OF: [REDACTED]

BOARD DATE: 6 August 2025

DOCKET NUMBER: AR20240012784

APPLICANT REQUESTS: upgrade of his uncharacterized service to honorable.

APPLICANT'S SUPPORTING DOCUMENT(S) CONSIDERED BY THE BOARD:

- DD Form 149 (Application for Correction of Military Record)
- DD Form 214 (Certificate of Release or Discharge from Active Duty) for period of service ending 27 October 1995
- Orders Number 298-355, issued by Headquarters, U.S. Army Engineer and Fort Leonard Wood, on 25 October 1995, attached him to the transition point for release from active duty for training, discharge from the Reserve of the Army, and return to his Army National Guard (ARNG) unit, effective 27 October 1995

FACTS:

1. The applicant did not file within the 3-year time frame provided in Title 10, U.S. Code, section 1552(b); however, the Army Board for Correction of Military Records (ABCMR) conducted a substantive review of this case and determined it is in the interest of justice to excuse the applicant's failure to timely file.
2. The applicant did not submit a statement in support of his request.
3. A review of the applicant's service records reflect the following:
 - a. On 17 July 1995, he enlisted in the ARNG.
 - b. He entered active duty for training on 11 September 1995, for the purpose of completing initial entry training. However, his service record reflects he neither completed training nor was awarded a military occupational specialty.
 - c. His record is void of a separation packet containing the specific facts and circumstances surrounding his discharge processing.

d. The applicant was released from active duty training and returned to the control of the ARNG on 27 October 1995. He was credited with 1 month and 17 days of net active service this period. His DD Form 214 contains the following entries in:

- item 24 (Character of Service) – Uncharacterized
- item 25 (Separation Authority) – AR [Army Regulation] 635-200 (Personnel Separations – Enlisted Personnel), paragraph 5-11
- item 26 (Separation Code) – JFW
- item 27 (Reentry Code) – 3
- item 28 (Narrative Reason for Separation) – Failure to Meet Procurement Medical Fitness Standards

4. Soldiers are considered to be in an entry-level status when they are within their first 180 days of active-duty service. An uncharacterized discharge is not meant to be a negative reflection of a Soldier's military service. It simply means the Soldier was not in the Army long enough for his or her character of service to be rated as honorable or otherwise.

BOARD DISCUSSION:

After reviewing the application, all supporting documents, and the evidence found within the military record, the Board found that relief was not warranted. The applicant’s contentions, the military record, and regulatory guidance were carefully considered. The governing regulation provides that a separation will be described as an entry-level separation, with service uncharacterized, if the separation action is initiated while a Soldier is in entry-level status. Soldiers in the U.S. Army Reserve are authorized an honorable discharge while in entry-level status only if they complete their active duty training and earn their designated military occupational specialty. The applicant did not complete training and was released from active duty due to failure to meet procurement medical fitness standards. The Board determined his DD Form 214 properly shows the appropriate characterization of service as uncharacterized.

BOARD VOTE:

BOARD DETERMINATION/RECOMMENDATION:

The evidence presented does not demonstrate the existence of a probable error or injustice. Therefore, the Board determined the overall merits of this case are insufficient as a basis for correction of the records of the individual concerned.

CHAIRPERSON

I certify that herein is recorded the true and complete record of the proceedings of the Army Board for Correction of Military Records in this case.

REFERENCES:

1. Title 10, U.S. Code, section 1552(b), provides that applications for correction of military records must be filed within 3 years after discovery of the alleged error or injustice. This provision of law also allows the ABCMR to excuse an applicant's failure to timely file within the 3-year statute of limitations if the ABCMR determines it would be in the interest of justice to do so.

2. Army Regulation 635-200 (Personnel Separations – Enlisted Personnel) sets policies, standards, and procedures to insure the readiness and competency of the force while providing for the orderly administrative separation of Soldiers for a variety of reasons.

a. Chapter 3 provides that a separation will be described as entry level with uncharacterized service if the Soldier has less than 180 days of continuous active duty service at the time separation action is initiated.

b. Paragraph 3-7a provides that an honorable discharge is a separation with honor and entitles the recipient to benefits provided by law. The honorable characterization is appropriate when the quality of the member's service generally has met the standards of acceptable conduct and performance of duty for Army personnel or is otherwise so meritorious that any other characterization would be clearly inappropriate.

c. Paragraph 3-9 provides that a separation would be described as entry level with uncharacterized service if processing was initiated while a Soldier was in an entry-level status, except when:

(1) a discharge under other than honorable conditions was authorized, due to the reason for separation and was warranted by the circumstances of the case; or

(2) the Secretary of the Army, on a case-by-case basis, determined a characterization of service as honorable was clearly warranted by the presence of unusual circumstances involving personal conduct and performance of duty. This characterization was authorized when the Soldier was separated by reason of selected changes in service obligation, for convenience of the government, and under Secretarial plenary authority.

d. Paragraph 5-11 provided that Soldiers who were not medically qualified under procurement medical fitness standards when accepted for enlistment or who became medically disqualified under these standards prior to entrance on active duty, active duty for training, or initial entry training would be separated. Medical proceeding, regardless of the date completed, must establish that a medical condition was identified by appropriate medical authority within 6 months of the Soldier's initial entrance on

active duty, that the condition would have permanently or temporarily disqualified the Soldier for entry into military service had it been detected at that time, and the medical condition did not disqualify the Soldier from retention in the service under the provisions of Army Regulation 40-501.

e. The character of service for Soldiers separated under this provision would normally be honorable but would be uncharacterized if the Soldier was in an entry-level status. An uncharacterized discharge is neither favorable nor unfavorable; in the case of Soldiers issued this characterization of service, an insufficient amount of time would have passed to evaluate the Soldier's conduct and performance.
