a. Applicant's Requests and Issues: The current characterization of service for the period under review is honorable. The applicant requests a narrative reason change.

The applicant seeks relief, contending, in effect, believes their separation code should be changed because the applicant was going through temporary emotional issues caused by the parent's death and was not allowed ample time to recoup. The applicant would like to rejoin the military now since they have recovered from their emotional issues and want to finish their service to the country; however, it is not allowed because of the separation and reentry code.

b. Board Type and Decision: In a records review conducted on 20 March 2025, and by a 5-0 vote, the Board denied the request upon finding the separation was both proper and equitable.

However, notwithstanding the propriety of the applicant's discharge, the Board found that the applicant's DD Form 214, blocks 25, 26, and 28, contain outdated entries. The Board directed the following administrative corrections and reissue of the applicant's DD Form 214, as approved by the separation authority: Block 25, separation authority changed to AR 635-200, paragraph 5-14; Block 26, separation code changed to JFV; Block 28, narrative reason for separation changed to Condition, Not a Disability.

*Please see **Board Discussion and Determination** section for more detail regarding the Board's decision.*

7. STATUTORY, REGULATORY AND POLICY REFERENCE(S):

a. Section 1553, Title 10, United States Code (Review of Discharge or Dismissal) provides for the creation, composition, and scope of review conducted by a Discharge Review Board(s) within established governing standards. As amended by Sections 521 and 525 of the National Defense Authorization Act for Fiscal Year 2020, 10 USC 1553 provides specific guidance to the Military Boards for Correction of Military/Naval Records and Discharge Review Boards when considering discharge upgrade requests by Veterans claiming Post Traumatic Stress Disorder (PTSD), Traumatic Brain Injury (TBI), sexual trauma, intimate partner violence (IPV), or spousal

abuse, as a basis for discharge review. The amended guidance provides that Boards will include, as a voting board member, a physician trained in mental health disorders, a clinical psychologist, or a psychiatrist when the discharge upgrade claim asserts a mental health condition, including PTSD, TBI, sexual trauma, IPV, or spousal abuse, as a basis for the discharge. Further, the guidance provides that Military Boards for Correction of Military/Naval Records and Discharge Review Boards will develop and provide specialized training specific to sexual trauma, IPV, spousal abuse, as well as the various responses of individuals to trauma.

b. Multiple Department of Defense Policy Guidance Memoranda published between 2014 and 2018. The documents are commonly referred to by the signatory authorities' last names (2014 Secretary of Defense Guidance [Hagel memo], 2016 Acting Principal Deputy Under Secretary of Defense for Personnel and Readiness [Carson memo], 2017 Official Performing the Duties of the Under Secretary of Defense for Personnel and Readiness [Kurta memo], and 2018 Under Secretary of Defense for Personnel and Readiness [Wilkie memo].

(1) Individually and collectively, these documents provide further clarification to the Military Discharge Review Boards and Boards for Correction of Military/Naval Records when considering requests by Veterans for modification of their discharge due to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Liberal consideration will be given to Veterans petitioning for discharge relief when the application for relief is based in whole or in part on matters relating to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Special consideration will be given to Department of Veterans Affairs (VA) determinations that document a mental health condition, including PTSD; TBI; or sexual assault/harassment potentially contributed to the circumstances resulting in a less than honorable discharge characterization. Special consideration will also be given in cases where a civilian provider confers diagnoses of a mental health condition, including PTSD; TBI; or sexual assault/harassment if the case records contain narratives supporting symptomatology at the time of service or when any other evidence which may reasonably indicate that a mental health condition, including PTSD; TBI; or sexual assault/harassment existed at the time of discharge might have mitigated the misconduct that caused a discharge of lesser characterization.

(2) Conditions documented in the service record that can reasonably be determined to have existed at the time of discharge will be considered to have existed at the time of discharge. In cases in which a mental health condition, including PTSD; TBI; or sexual assault/harassment may be reasonably determined to have existed at the time of discharge, those conditions will be considered potential mitigating factors in the misconduct that caused the characterization of service in question. All Boards will exercise caution in weighing evidence of mitigation in cases in which serious misconduct precipitated a discharge with a less than Honorable characterization of service. Potentially mitigating evidence of the existence of undiagnosed combat related PTSD, PTSD-related conditions due to TBI or sexual assault/harassment as causative factors in the misconduct resulting in discharge will be carefully weighed against the severity of the misconduct. PTSD is not a likely cause of premeditated misconduct. Caution shall be exercised in weighing evidence of mitigation in all cases of misconduct by carefully considering the likely causal relationship of symptoms to the misconduct.

c. Army Regulation 15-180 (Army Discharge Review Board), sets forth the policies and procedures under which the Army Discharge Review Board is authorized to review the character, reason, and authority of any Servicemember discharged from active military service within 15 years of the Servicemember's date of discharge. Additionally, it prescribes actions and composition of the Army Discharge Review Board under Public Law 95-126; Section 1553, Title 10 United States Code; and Department of Defense Directive 1332.41 and Instruction 1332.28.

d. Army Regulation 635-200 (Active Duty Enlisted Administrative Separations), provides the basic authority for the separation of enlisted personnel.

(1) Chapter 3, Section II provides the authorized types of characterization of service or description of separation.

(2) Paragraph 3-7a states an Honorable discharge is a separation with honor and is appropriate when the quality of the Soldier's service generally has met the standards of acceptable conduct and performance of duty for Army personnel or is otherwise so meritorious that any other characterization would be clearly inappropriate.

(3) Chapter 5 provides for the basic separation of enlisted personnel for the convenience of the government.

(4) Paragraph 5-13, in effect at the time, provided that a Soldier may be separated for a personality disorder, not amounting to disability, when the condition interfered with assignment to or performance of duty. The regulation requires that the condition is a deeply ingrained maladaptive pattern of behavior of long duration that interferes with the Soldier's ability to perform military duties. The regulation also directs that commanders will not take action prescribed in this Chapter in lieu of disciplinary action and requires that the disorder is so severe that the Soldier's ability to function in the military environment is significantly impaired. Army policy requires the award of a fully honorable discharge in such case.

(5) Paragraph 5-13h, stipulates a characterization of a Soldier separated per this paragraph will be characterized as honorable unless an entry-level separation is required under chapter 3, section II. Characterization of service under honorable conditions may be awarded to a Soldier who has been convicted of an offense by general court-martial or who has been convicted by more than one special court-martial in the current enlistment, period of obligated service, or any extension thereof.

e. Army Regulation 635-5-1 (Separation Program Designator (SPD) Codes), in effect at the time, provided the specific authorities (regulatory or directive), reasons for separating Soldiers from active duty, and the SPD codes to be entered on the DD Form 214. It identified the SPD code of "JFX" as the appropriate code to assign enlisted Soldiers who were discharged under the provisions of Army Regulation 635-200, Chapter 5-13, personality disorder.

f. Army Regulation 601-210 (Regular Army and Reserve Components Enlistment Program), governs eligibility criteria, policies, and procedures for enlistment and processing of persons into the Regular Army, the U.S. Army Reserve, and Army National Guard for enlistment per DODI 1304.26. It also prescribes the appointment, reassignment, management, and mobilization of Reserve Officers' Training Corps cadets under the Simultaneous Membership Program. Chapter 4 provides the criteria and procedures for waiverable and nonwaiverable separations. Table 3-1, defines reentry eligibility (RE) codes:

RE-1 Applies to: Person completing his or her term of active service who is considered qualified to reenter the U.S. Army. Eligibility: Qualified for enlistment if all other criteria are met.

RE-3 Applies to: Person who is not considered fully qualified for reentry or continuous service at time of separation, but disqualification is waiverable. Eligibility: Ineligible unless a waiver is granted.

RE-4 Applies to: Person separated from last period of service with a nonwaiverable disqualification. This includes anyone with a DA imposed bar to reenlistment in effect at time of

separation or separated for any reason (except length of service retirement) with 18 or more years active Federal service. Eligibility: Ineligible for enlistment.

8. SUMMARY OF FACT(S): The Army Discharge Review Board considers applications for upgrade as instructed by Department of Defense Instruction 1332.28.

The applicant requests a narrative reason change. The applicant's Army Military Human Resources Record (AMHRR), the issues, and documents submitted with the application were carefully reviewed.

The Commander's Initiation Memorandum, 18 January 2011, confirms on 8 November 2010, during a mental health appointment, it was deemed necessary for the applicant to be seen at Cushing Hospital Behavioral Health Unit in Leavenworth, Kansas, for further evaluation. It was found the applicant had a long-standing disorder of depression and anxiety, which was of such severity to preclude adequate military service. The applicant had consistently had issues adapting to the Army lifestyle and job requirements expected of them.

The applicant contends the narrative reason for separation needs changed. The applicant was separated under the provisions of Chapter 5, paragraph 5-13, AR 635-200, with an honorable discharge. The narrative reason specified by Army Regulations for a discharge under this paragraph is "Personality Disorder," and the separation code is "JFX." Army Regulation 635-8 (Separation Processing and Documents) governs the preparation of the DD Form 214 and dictates the entry of the narrative reason for separation, entered in block 28, and separation code, entered in block 26 of the form, will be as listed in tables 2-2 or 2-3 of AR 635-5-1 (Separation Program Designator (SPD) Codes). The regulation stipulates no deviation is authorized. There is no provision for entry of any other reason under this regulation.

The applicant desires to rejoin the military service. Soldiers processed for separation are assigned reentry codes based on their service records or the reason for discharge. Based on Army Regulation 601-210, the applicant was appropriately assigned an RE code of "3." There is no basis for granting a change to the reason or the RE code. An RE Code of "3" indicates the applicant requires a waiver before being allowed to reenlist. Recruiters can best advise a former service member on the Army's needs at the time and are required to process waivers of reentry eligibility (RE) codes if appropriate.

9. BOARD DISCUSSION AND DETERMINATION:

a. As directed by the 2017 memo signed by A.M. Kurta, the board considered the following factors:

(1) Did the applicant have a condition or experience that may excuse or mitigate the discharge? **No.** The Board reviewed the applicant's DOD and VA health records, applicant's statement, and/or civilian provider documentation and found that the applicant was diagnosed in service with an Adjustment Disorder, Major Depression, and Anxiety Disorder NOS and is service connected by the VA for Bipolar Disorder. However, there is no misconduct associated with this discharge to potentially excuse or mitigate. The applicant was separated for a personality disorder in accordance with the regulations at the time.

(2) Did the condition exist or experience occur during military service? **N/A**

(3) Does the condition or experience actually excuse or mitigate the discharge? **N/A**

(4) Does the condition or experience outweigh the discharge? **N/A**

b. Response to Contention(s):

(1) The applicant contends the narrative reason for separation needs changed. The Board considered this contention and determined that it was valid. The separation regulation, AR 635-500, no longer has a category for "Personality Disorder" discharges. Instead, Condition, Not a Disability is used to describe the reason for separation.

(2) The applicant desires to rejoin the military service. The Board considered this contention and voted to maintain the RE-code at RE-3, which is a waivable code. An RE Code of "3" indicates the applicant requires a waiver before being allowed to reenlist. Recruiters can best advise a former service member as to the Army's needs at the time and are required to process waivers of reentry eligibility (RE) codes, if appropriate

a. The Board denied the request upon finding the separation was both proper and equitable. However, notwithstanding the propriety of the applicant's discharge, the Board found that the applicant's DD Form 214, blocks 25, 26, and 28, contain outdated entries. The Board directed the following administrative corrections and reissue of the applicant's DD Form 214, as approved by the separation authority: Block 25, separation authority changed to AR 635-200, paragraph 5-14; Block 26, separation code changed to JFV; Block 28, narrative reason for separation changed to Condition, Not a Disability.

c. Rationale for Decision:

(1) The Board voted not to change the applicant's characterization of service as the applicant already holds an honorable characterization and further relief is not available.

(2) The Board voted to change the reason for discharge to Condition, Not a Disability based of updates made to the separation regulation, thus the reason for discharge is no longer appropriate. The SPD code associated with the new reason for discharge is JFV.

(3) The RE code will not change, as the current code is consistent with the procedural and substantive requirements of the regulation.

10. BOARD ACTION DIRECTED:

- a. Issue a New DD-214: Yes
- b. Change Characterization to: No Change
- c. Change Reason / SPD Code to: Condition, Not a Disability / JFV
