

1. Applicant's Name: [REDACTED]**a. Application Date:** 26 April 2021**b. Date Received:** 26 April 2021**c. Counsel:** None**2. REQUEST, ISSUES, BOARD TYPE, AND DECISION:**

a. Applicant's Requests and Issues: The current characterization of service for the period under review is general (under honorable conditions). The applicant requests an upgrade to honorable.

The applicant seeks relief contending, in effect, diagnosed after the discharge with traumatic brain injury (TBI), post-traumatic stress disorder (PTSD), and other illnesses. The applicant believes they should not be punished because they cannot take care of themselves. The applicant desires to attend college to increase opportunities for employment.

b. Board Type and Decision: In a records review conducted on 27 February 2025, and by a 5-0 vote, the Board determined that the characterization of service was inequitable based on the applicant's Post Traumatic Stress Disorder, Traumatic Brain Injury, and Generalized Anxiety Disorder outweighing the applicant's Alcohol Rehabilitation Failure. Accordingly, the Board voted to grant relief in the form of an upgrade to the characterization of service to Honorable. The Board determined the narrative reason/SPD code and RE code were proper and equitable and voted not to change them.

*Please see **Board Discussion and Determination** section for more detail regarding the Board's decision.*

(Board member names available upon request)

3. DISCHARGE DETAILS:

a. Reason / Authority / Codes / Characterization: Alcohol Rehabilitation Failure / AR 635-200, Chapter 9 / JPD / RE-4 / General (Under Honorable Conditions)

b. Date of Discharge: 10 February 2010

c. Separation Facts: The applicant's Army Military Human Resource Record (AMHRR) is void of partial facts in the case separation file.

(1) Date of Notification of Intent to Separate: NIF

(2) Basis for Separation: NIF

(3) Recommended Characterization: NIF

(4) Legal Consultation Date: 3 February 2010

(5) Administrative Separation Board: NIF

(6) Separation Decision Date / Characterization: 5 February 2010 / General (Under Honorable Conditions)

4. SERVICE DETAILS:

- a. Date / Period of Enlistment:** 15 November 2007 / 3 years, 18 weeks
- b. Age at Enlistment / Education / GT Score:** 21 / High School Graduate / 121
- c. Highest Grade Achieved / MOS / Total Service:** E-4 / 21B10, Combat Engineer / 2 years, 2 months, 26 days
- d. Prior Service / Characterizations:** None
- e. Overseas Service / Combat Service:** SWA / Iraq (2 May 2008 – 6 July 2009)
- f. Awards and Decorations:** ARCOM, NDSM, GWOTSM, ICM-CS, ASR
- g. Performance Ratings:** NA
- h. Disciplinary Action(s) / Evidentiary Record:** Orders 039-1306, 8 February 2010, reflect the applicant was to be reassigned to the U.S. Army Transition Point and discharged on 10 February 2010, from the Regular Army.

The applicant's DD Form 214 (Certificate of Release or Discharge from Active Duty), reflects the applicant had not completed the first full term of service. The applicant was discharged under the authority of AR 635-200, paragraph 9, with a narrative reason of Alcohol Rehabilitation failure. The DD Form 214 was authenticated with the applicant's electronic signature.

i. Lost Time / Mode of Return: None

j. Behavioral Health Condition(s):

(1) Applicant provided: Department of Veterans Affairs Rating Decision, 7 December 2010, reflects a diagnosis of Post-traumatic stress disorder and adjustment disorder with mixed anxiety and depressive features, with an evaluation of 80 percent.

Medical record, 19 April 2012, reflects a diagnosis of PTSD, Major Depressive Disorder, ADHD Combined Type, and Alcohol Dependence.

(2) AMHRR Listed: None

5. APPLICANT-PROVIDED EVIDENCE: Certificate of Release or Discharge from Active Duty; Application for the Review of Discharge; Letter from Senator R.; Veterans Affairs Rating Decision; medical record; letter of support.

6. POST SERVICE ACCOMPLISHMENTS: The applicant sought treatment from the VA for their mental health.

7. STATUTORY, REGULATORY AND POLICY REFERENCE(S):

a. Section 1553, Title 10, United States Code (Review of Discharge or Dismissal) provides for the creation, composition, and scope of review conducted by a Discharge Review Board(s)

within established governing standards. As amended by Sections 521 and 525 of the National Defense Authorization Act for Fiscal Year 2020, 10 USC 1553 provides specific guidance to the Military Boards for Correction of Military/Naval Records and Discharge Review Boards when considering discharge upgrade requests by Veterans claiming Post Traumatic Stress Disorder (PTSD), Traumatic Brain Injury (TBI), sexual trauma, intimate partner violence (IPV), or spousal abuse, as a basis for discharge review. The amended guidance provides that Boards will include, as a voting board member, a physician trained in mental health disorders, a clinical psychologist, or a psychiatrist when the discharge upgrade claim asserts a mental health condition, including PTSD, TBI, sexual trauma, IPV, or spousal abuse, as a basis for the discharge. Further, the guidance provides that Military Boards for Correction of Military/Naval Records and Discharge Review Boards will develop and provide specialized training specific to sexual trauma, IPV, spousal abuse, as well as the various responses of individuals to trauma.

b. Multiple Department of Defense Policy Guidance Memoranda published between 2014 and 2018. The documents are commonly referred to by the signatory authorities' last names (2014 Secretary of Defense Guidance [Hagel memo], 2016 Acting Principal Deputy Under Secretary of Defense for Personnel and Readiness [Carson memo], 2017 Official Performing the Duties of the Under Secretary of Defense for Personnel and Readiness [Kurta memo], and 2018 Under Secretary of Defense for Personnel and Readiness [Wilkie memo].

(1) Individually and collectively, these documents provide further clarification to the Military Discharge Review Boards and Boards for Correction of Military/Naval Records when considering requests by Veterans for modification of their discharge due to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Liberal consideration will be given to Veterans petitioning for discharge relief when the application for relief is based in whole or in part on matters relating to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Special consideration will be given to Department of Veterans Affairs (VA) determinations that document a mental health condition, including PTSD; TBI; or sexual assault/harassment potentially contributed to the circumstances resulting in a less than honorable discharge characterization. Special consideration will also be given in cases where a civilian provider confers diagnoses of a mental health condition, including PTSD; TBI; or sexual assault/harassment if the case records contain narratives supporting symptomatology at the time of service or when any other evidence which may reasonably indicate that a mental health condition, including PTSD; TBI; or sexual assault/harassment existed at the time of discharge might have mitigated the misconduct that caused a discharge of lesser characterization.

(2) Conditions documented in the service record that can reasonably be determined to have existed at the time of discharge will be considered to have existed at the time of discharge. In cases in which a mental health condition, including PTSD; TBI; or sexual assault/harassment may be reasonably determined to have existed at the time of discharge, those conditions will be considered potential mitigating factors in the misconduct that caused the characterization of service in question. All Boards will exercise caution in weighing evidence of mitigation in cases in which serious misconduct precipitated a discharge with a less than Honorable characterization of service. Potentially mitigating evidence of the existence of undiagnosed combat related PTSD, PTSD-related conditions due to TBI or sexual assault/harassment as causative factors in the misconduct resulting in discharge will be carefully weighed against the severity of the misconduct. PTSD is not a likely cause of premeditated misconduct. Caution shall be exercised in weighing evidence of mitigation in all cases of misconduct by carefully considering the likely causal relationship of symptoms to the misconduct.

c. Army Regulation 15-180 (Army Discharge Review Board), sets forth the policies and procedures under which the Army Discharge Review Board is authorized to review the character, reason, and authority of any Servicemember discharged from active military service

within 15 years of the Servicemember's date of discharge. Additionally, it prescribes actions and composition of the Army Discharge Review Board under Public Law 95-126; Section 1553, Title 10 United States Code; and Department of Defense Directive 1332.41 and Instruction 1332.28.

d. Army Regulation 635-200 (Active Duty Enlisted Administrative Separations), provides the basic authority for the separation of enlisted personnel.

(1) Chapter 3, Section II provides the authorized types of characterization of service or description of separation.

(2) Paragraph 3-7a states an Honorable discharge is a separation with honor and is appropriate when the quality of the Soldier's service generally has met the standards of acceptable conduct and performance of duty for Army personnel or is otherwise so meritorious that any other characterization would be clearly inappropriate.

(3) Paragraph 3-7b states a General discharge is a separation from the Army under honorable conditions and is issued to a Soldier whose military record is satisfactory but not sufficiently meritorious to warrant an honorable discharge.

(4) Chapter 9 outlines the procedures for discharging individuals because of alcohol or other drug abuse. A member who has been referred to the Army Substance Abuse Program (ASAP) for alcohol or drug abuse may be separated because of inability or refusal to participate in, cooperate in, or successfully complete such a program if there is a lack of potential for continued Army service and rehabilitation efforts are no longer practical.

(5) Paragraph 9-4, stipulates the service of Soldiers discharged under this section will be characterized as honorable or under honorable conditions unless the Soldier is in entry-level status and an uncharacterized description of service is required. An honorable discharge is mandated in any case in which the Government initially introduces into the final discharge process limited use evidence as defined by AR 600-85.

e. Army Regulation 635-5-1 (Separation Program Designator (SPD) Codes), provides the specific authorities (regulatory or directive), reasons for separating Soldiers from active duty, and the SPD codes to be entered on the DD Form 214. It identifies the SPD code of "JPD" as the appropriate code to assign enlisted Soldiers who are discharged under the provisions of Army Regulation 635-200, Chapter 9, for alcohol rehabilitation failure.

f. Army Regulation 601-210 (Regular Army and Reserve Components Enlistment Program), governs eligibility criteria, policies, and procedures for enlistment and processing of persons into the Regular Army, the U.S. Army Reserve, and Army National Guard for enlistment per DODI 1304.26. It also prescribes the appointment, reassignment, management, and mobilization of Reserve Officers' Training Corps cadets under the Simultaneous Membership Program. Chapter 4 provides the criteria and procedures for waiverable and nonwaiverable separations. Table 3-1, defines reentry eligibility (RE) codes: RE-4 Applies to: Person separated from last period of service with a nonwaiverable disqualification. This includes anyone with a DA imposed bar to reenlistment in effect at time of separation or separated for any reason (except length of service retirement) with 18 or more years active Federal service. Eligibility: Ineligible for enlistment.

8. SUMMARY OF FACT(S): The Army Discharge Review Board considers applications for upgrade as instructed by Department of Defense Instruction 1332.28.

The applicant requests an upgrade to honorable. The applicant's Army Military Human Resources Record (AMHRR), the issues, and documents submitted with the application were carefully reviewed.

The applicant's Army Military Human Resources Record (AMHRR) includes partial facts and circumstances concerning the events which led to the discharge from the Army. The applicant's AMHRR does contain a properly constituted DD Form 214 (Certificate of Release or Discharge from Active Duty), which was authenticated by the applicant's electronic signature. The applicant's DD Form 214 indicates the applicant was discharged under the provisions of AR 635-200, Chapter 9, by reason of Alcohol Rehabilitation Failure, with a characterization of service of general (under honorable conditions).

The applicant contends being diagnosed after the discharge with traumatic brain injury (TBI), post-traumatic stress disorder (PTSD), and other illnesses. The applicant provided a Department of Veterans Affairs Rating Decision, 7 December 2010, reflecting a diagnosis of Post-traumatic stress disorder and adjustment disorder with mixed anxiety and depressive features, with an evaluation of 80 percent. Also, a Medical record, 19 April 2012, reflecting a diagnosis of PTSD, Major Depressive Disorder, ADHD Combined Type, and Alcohol Dependence. The AMHRR is void of a mental status evaluation.

The applicant contends an upgrade of the discharge will allow the applicant to obtain better employment. The Board does not grant relief to gain employment or enhance employment opportunities.

The applicant contends an upgrade would allow educational benefits through the GI Bill. Eligibility for veteran's benefits to include educational benefits under the Post-9/11 or Montgomery GI Bill does not fall within the purview of the Army Discharge Review Board. Accordingly, the applicant should contact a local office of the Department of Veterans Affairs for further assistance.

The third-party statement provided with the application reflects the applicant was treated unfairly and deserves an honorable discharge and currently being treated at the VA.

The applicant contends seeking treatment from the VA for their mental health. The Army Discharge Review Board is authorized to consider post-service factors in the recharacterization of a discharge. No law or regulation provides for the upgrade of an unfavorable discharge based solely on the passage of time or good conduct in civilian life after leaving the service. The Board reviews each discharge on a case-by-case basis to determine if post-service accomplishments help demonstrate previous in-service misconduct was an aberration and not indicative of the member's overall character.

9. BOARD DISCUSSION AND DETERMINATION:

a. As directed by the 2017 memo signed by A.M. Kurta, the board considered the following factors:

(1) Did the applicant have a condition or experience that may excuse or mitigate the discharge? **Yes.** The Board reviewed the applicant's DOD and VA health records, applicant's statement, and/or civilian provider documentation and found that the applicant has the following potentially-mitigating diagnoses/experiences: Adjustment Disorder, Generalized Anxiety Disorder, PTSD. Additionally, the applicant asserts TBI, which may be sufficient evidence to establish the existence of a condition that could mitigate or excuse the discharge.

(2) Did the condition exist or experience occur during military service? **Yes.** The Board found that the applicant was diagnosed in service with an Adjustment Disorder and Generalized Anxiety Disorder and is service connected by the VA for PTSD. Service connection establishes that the PTSD also existed during military service. In addition, the applicant self-asserts TBI during military service which is verified by the VA medical record.

(3) Does the condition or experience actually excuse or mitigate the discharge? **Yes.** The Board determined, based on the BMA's opine, that the applicant's behavioral health conditions mitigate the discharge. Given the nexus between Generalized Anxiety Disorder, PTSD, TBI, and self-medicating with substances, the applicant's BH conditions mitigate the Alcohol Rehabilitation Failure that led to the separation.

(4) Does the condition or experience outweigh the discharge? **Yes.** After applying liberal consideration to the evidence, including the Board Medical Advisor opine, the Board determined that the applicant's Post Traumatic Stress Disorder, Traumatic Brain Injury, and Generalized Anxiety Disorder outweighed the applicant's Alcohol Rehabilitation Failure.

b. Response to Contention(s):

(1) The applicant contends being diagnosed after the discharge with traumatic brain injury (TBI), post-traumatic stress disorder (PTSD), and other illnesses. The Board liberally considered this contention and determined that the applicant's Post Traumatic Stress Disorder, Traumatic Brain Injury, and Generalized Anxiety Disorder outweighed the applicant's Alcohol Rehabilitation Failure.

(2) The applicant contends an upgrade of the discharge will allow the applicant to obtain better employment. The Board considered this contention but does not grant relief to gain employment or enhance employment opportunities.

(3) The applicant contends an upgrade would allow educational benefits through the GI Bill. The Board considered this contention and determined that eligibility for Veteran's benefits, to include educational benefits under the Post-9/11 or Montgomery GI Bill, healthcare or VA loans, do not fall within the purview of the Army Discharge Review Board. Accordingly, the applicant should contact a local office of the Department of Veterans Affairs for further assistance.

c. The Board determined that the characterization of service was inequitable based on the applicant's Post Traumatic Stress Disorder, Traumatic Brain Injury, and Generalized Anxiety Disorder outweighing the applicant's Alcohol Rehabilitation Failure. Accordingly, the Board voted to grant relief in the form of an upgrade to the characterization of service to Honorable. The Board determined the narrative reason/SPD code and RE code were proper and equitable and voted not to change them.

d. Rationale for Decision:

(1) The Board voted to change the applicant's characterization of service to Honorable because the applicant's Post Traumatic Stress Disorder, Traumatic Brain Injury, and Generalized Anxiety Disorder outweighed the applicant's Alcohol Rehabilitation Failure. Thus, the prior characterization is no longer appropriate.

(2) The Board voted not to change the applicant's reason for discharge or accompanying SPD code under the same pretexts, and the reason the applicant was discharged was both proper and equitable.

ARMY DISCHARGE REVIEW BOARD CASE REPORT AND DIRECTIVE

AR20210000427

(3) The RE code will not change, as the current code is consistent with the procedural and substantive requirements of the regulation.

10. BOARD ACTION DIRECTED:

- a. Issue a New DD-214: Yes
- b. Change Characterization to: Honorable
- c. Change Reason / SPD Code to: No Change
- d. Change RE Code to: No Change
- e. Change Authority to: No Change
