**7. STATUTORY, REGULATORY AND POLICY REFERENCE(s):**

**a.** Section 1553, Title 10, United States Code (Review of Discharge or Dismissal) provides for the creation, composition, and scope of review conducted by a Discharge Review Board(s) within established governing standards. As amended by Sections 521 and 525 of the National Defense Authorization Act for Fiscal Year 2020, 10 USC 1553 provides specific guidance to the Military Boards for Correction of Military/Naval Records and Discharge Review Boards when considering discharge upgrade requests by Veterans claiming Post Traumatic Stress Disorder (PTSD), Traumatic Brain Injury (TBI), sexual trauma, intimate partner violence (IPV), or spousal

abuse, as a basis for discharge review. The amended guidance provides that Boards will include, as a voting board member, a physician trained in mental health disorders, a clinical psychologist, or a psychiatrist when the discharge upgrade claim asserts a mental health condition, including PTSD, TBI, sexual trauma, IPV, or spousal abuse, as a basis for the discharge. Further, the guidance provides that Military Boards for Correction of Military/Naval Records and Discharge Review Boards will develop and provide specialized training specific to sexual trauma, IPV, spousal abuse, as well as the various responses of individuals to trauma.

**b.** Multiple Department of Defense Policy Guidance Memoranda published between 2014 and 2018. The documents are commonly referred to by the signatory authorities' last names (2014 Secretary of Defense Guidance [Hagel memo], 2016 Acting Principal Deputy Under Secretary of Defense for Personnel and Readiness [Carson memo], 2017 Official Performing the Duties of the Under Secretary of Defense for Personnel and Readiness [Kurta memo], and 2018 Under Secretary of Defense for Personnel and Readiness [Wilkie memo].

**(1)** Individually and collectively, these documents provide further clarification to the Military Discharge Review Boards and Boards for Correction of Military/Naval Records when considering requests by Veterans for modification of their discharge due to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Liberal consideration will be given to Veterans petitioning for discharge relief when the application for relief is based in whole or in part on matters relating to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Special consideration will be given to Department of Veterans Affairs (VA) determinations that document a mental health condition, including PTSD; TBI; or sexual assault/harassment potentially contributed to the circumstances resulting in a less than honorable discharge characterization. Special consideration will also be given in cases where a civilian provider confers diagnoses of a mental health condition, including PTSD; TBI; or sexual assault/harassment if the case records contain narratives supporting symptomatology at the time of service or when any other evidence which may reasonably indicate that a mental health condition, including PTSD; TBI; or sexual assault/harassment existed at the time of discharge might have mitigated the misconduct that caused a discharge of lesser characterization.

**(2)** Conditions documented in the service record that can reasonably be determined to have existed at the time of discharge will be considered to have existed at the time of discharge. In cases in which a mental health condition, including PTSD; TBI; or sexual assault/harassment may be reasonably determined to have existed at the time of discharge, those conditions will be considered potential mitigating factors in the misconduct that caused the characterization of service in question. All Boards will exercise caution in weighing evidence of mitigation in cases in which serious misconduct precipitated a discharge with a less than Honorable characterization of service. Potentially mitigating evidence of the existence of undiagnosed combat related PTSD, PTSD-related conditions due to TBI or sexual assault/harassment as causative factors in the misconduct resulting in discharge will be carefully weighed against the severity of the misconduct. PTSD is not a likely cause of premeditated misconduct. Caution shall be exercised in weighing evidence of mitigation in all cases of misconduct by carefully considering the likely causal relationship of symptoms to the misconduct.

**c.** Army Regulation 15-180 (Army Discharge Review Board), sets forth the policies and procedures under which the Army Discharge Review Board is authorized to review the character, reason, and authority of any Servicemember discharged from active military service within 15 years of the Servicemember's date of discharge. Additionally, it prescribes actions and composition of the Army Discharge Review Board under Public Law 95-126; Section 1553, Title 10 United States Code; and Department of Defense Directive 1332.41 and Instruction 1332.28.

**d.** Army Regulation 635-200 (Active Duty Enlisted Administrative Separations) provides the basic authority for the separation of enlisted personnel.

**(1)** Chapter 3, Section II provides the authorized types of characterization of service or description of separation.

**(2)** Paragraph 3-7a states an Honorable discharge is a separation with honor and is appropriate when the quality of the Soldier's service generally has met the standards of acceptable conduct and performance of duty for Army personnel or is otherwise so meritorious that any other characterization would be clearly inappropriate.

**(3)** Paragraph 3-7b states a General discharge is a separation from the Army under honorable conditions and is issued to a Soldier whose military record is satisfactory but not sufficiently meritorious to warrant an honorable discharge.

**(4)** Paragraph 3-9 states a separation will be described as entry-level with service uncharacterized if processing is initiated while a Soldier is in entry-level status.

**(5)** Chapter 5 provides for the basic separation of enlisted personnel for the convenience of the government.

**(6)** Paragraph 5-1 states a Soldier being separated under this paragraph will be awarded a characterization of service of honorable, general (under honorable conditions), or an uncharacterized description of service if in entry-level status. A general (under honorable conditions) discharge is normally inappropriate for individuals separated under the provisions of paragraph 5-14 (previously paragraph 5-17) unless properly notified of the specific factors in the service that warrant such characterization.

**(7)** Paragraph 5-14 (previously paragraph 5-17) specifically provides that a Soldier may be separated for other physical or mental conditions not amounting to a disability, which interferes with assignment to or performance of duty and requires that the diagnosis be so severe that the Soldier's ability to function in the military environment is significantly impaired.

**(8)** Glossary defines entry-level status for ARNGUS and USAR Soldiers, entry-level status begins upon enlistment in the ARNG or USAR. For Soldiers ordered to IADT for one continuous period, it terminates 180 days after beginning training. For Soldiers ordered to IADT for the split or alternate training option, it terminates 90 days after beginning Phase II advanced individual training (AIT). (Soldiers completing Phase I BT or basic combat training remain in entry-level status until 90 days after beginning Phase II.)

**e.** Army Regulation 635-5-1 (Separation Program Designator (SPD) Codes), provides the specific authorities (regulatory or directive), reasons for separating Soldiers from active duty, and the SPD codes to be entered on the DD Form 214. It identifies the SPD code of "JFV" as the appropriate code to assign enlisted Soldiers who are discharged under the provisions of Army Regulation 635-200, Chapter 5-14 (previously Chapter 5-17), Condition, Not a Disability.

**f.** Army Regulation 601-210 (Regular Army and Reserve Components Enlistment Program) governs eligibility criteria, policies, and procedures for enlistment and processing of persons into the Regular Army, the U.S. Army Reserve, and Army National Guard for enlistment per DODI 1304.26. It also prescribes the appointment, reassignment, management, and mobilization of Reserve Officers' Training Corps cadets under the Simultaneous Membership Program. Chapter 4 provides the criteria and procedures for waiverable and nonwaiverable separations. Table 3-1, defines reentry eligibility (RE) codes:

RE-1 Applies to: Person completing his or her term of active service who is considered qualified to reenter the U.S. Army. Eligibility: Qualified for enlistment if all other criteria are met.

RE-3 Applies to: Person who is not considered fully qualified for reentry or continuous service at time of separation, but disqualification is waivable. Eligibility: Ineligible unless a waiver is granted.

RE-4 Applies to: Person separated from last period of service with a nonwaivable disqualification. This includes anyone with a DA imposed bar to reenlistment in effect at time of separation or separated for any reason (except length of service retirement) with 18 or more years active Federal service. Eligibility: Ineligible for enlistment.

**8. SUMMARY OF FACT(S):** The Army Discharge Review Board considers applications for upgrade as instructed by Department of Defense Instruction 1332.28.

The applicant requests an upgrade to honorable. The applicant's Army Military Human Resources Record (AMHRR), the issues, and documents submitted with the application were carefully reviewed.

The applicant desires to rejoin the military service. Soldiers processed for separation are assigned reentry codes based on their service records or the reason for discharge. Based on Army Regulation 601-210, the applicant was appropriately assigned an RE code of "3." There is no basis upon which to grant a change to the reason or the RE code. An RE Code of "3" indicates the applicant requires a waiver before being allowed to reenlist. Recruiters can best advise a former service member as to the Army's needs at the time and are required to process waivers of reentry eligibility (RE) codes if appropriate.

**9. BOARD DISCUSSION AND DETERMINATION:**

a. As directed by the 2017 memo signed by A.M. Kurta, the board considered the following factors:

(1) Did the applicant have a condition or experience that may excuse or mitigate the discharge? **No.** The Board reviewed the applicant's DOD and VA health records, applicant's statement, and/or civilian provider documentation and found. **NONE.** A review of the available information reflects the applicant was not discharged due to misconduct, but was separated under provisions of AR 635-200 Chapter 5-17 for an Adjustment Disorder prior to completing initial entry training.

(2) Did the condition exist, or experience occur during military service? **N/A**

(3) Does the condition or experience excuse or mitigate the discharge? **N/A**

(4) Does the condition or experience outweigh the discharge? **N/A**

b. Response to Contention(s): The applicant desires to rejoin the military service. The Board considered this contention and found insufficient mitigating factors to warrant a change from the applicant's reentry eligibility code of RE-3. In addition, the Board found that the applicant was able to rejoin the military since submitting this application to the ADRB.

c. The Board determined that the discharge is, at this time, proper and equitable, in light of the current evidence of record. However, the applicant may request a personal appearance

**ARMY DISCHARGE REVIEW BOARD CASE REPORT AND DIRECTIVE****AR20210000552**

hearing to address the issues before the Board. The applicant is responsible for satisfying the burden of proof and providing documents or other evidence sufficient to support the applicant's contention(s) that the discharge was improper or inequitable.

**d. Rationale for Decision:**

(1) The Board voted not to change the applicant's characterization of service because there were no mitigating factors for the Board to consider. Since the applicant was discharged for failing medical procurement standards due to an Adjustment Disorder, Uncharacterized is proper and equitable. The discharge was consistent with the procedural and substantive requirements of the regulation, was within the discretion of the separation authority, and the applicant was provided full administrative due process.

(2) The Board voted not to change the applicant's reason for discharge or accompanying SPD code under the same pretexts, and the reason the applicant was discharged was both proper and equitable.

(3) The RE code will not change, as the current code is consistent with the procedural and substantive requirements of the regulation.

**10. BOARD ACTION DIRECTED:**

- b. Change Characterization to:** No Change
- c. Change Reason / SPD Code to:** No Change
- d. Change RE Code to:** No Change
