7. **STATUTORY, REGULATORY AND POLICY REFERENCE(s):**

a. Section 1553, Title 10, United States Code (Review of Discharge or Dismissal) provides for the creation, composition, and scope of review conducted by a Discharge Review Board(s) within established governing standards. As amended by Sections 521 and 525 of the National Defense Authorization Act for Fiscal Year 2020, 10 USC 1553 provides specific guidance to the Military Boards for Correction of Military/Naval Records and Discharge Review Boards when considering discharge upgrade requests by Veterans claiming Post Traumatic Stress Disorder (PTSD), Traumatic Brain Injury (TBI), sexual trauma, intimate partner violence (IPV), or spousal abuse, as a basis for discharge review. The amended guidance provides that Boards will

include, as a voting board member, a physician trained in mental health disorders, a clinical psychologist, or a psychiatrist when the discharge upgrade claim asserts a mental health condition, including PTSD, TBI, sexual trauma, IPV, or spousal abuse, as a basis for the discharge. Further, the guidance provides that Military Boards for Correction of Military/Naval Records and Discharge Review Boards will develop and provide specialized training specific to sexual trauma, IPV, spousal abuse, as well as the various responses of individuals to trauma.

b. Multiple Department of Defense Policy Guidance Memoranda published between 2014 and 2018. The documents are commonly referred to by the signatory authorities' last names (2014 Secretary of Defense Guidance [Hagel memo], 2016 Acting Principal Deputy Under Secretary of Defense for Personnel and Readiness [Carson memo], 2017 Official Performing the Duties of the Under Secretary of Defense for Personnel and Readiness [Kurta memo], and 2018 Under Secretary of Defense for Personnel and Readiness [Wilkie memo].

(1) Individually and collectively, these documents provide further clarification to the Military Discharge Review Boards and Boards for Correction of Military/Naval Records when considering requests by Veterans for modification of their discharge due to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Liberal consideration will be given to Veterans petitioning for discharge relief when the application for relief is based in whole or in part on matters relating to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Special consideration will be given to Department of Veterans Affairs (VA) determinations that document a mental health condition, including PTSD; TBI; or sexual assault/harassment potentially contributed to the circumstances resulting in a less than honorable discharge characterization. Special consideration will also be given in cases where a civilian provider confers diagnoses of a mental health condition, including PTSD; TBI; or sexual assault/harassment if the case records contain narratives supporting symptomatology at the time of service or when any other evidence which may reasonably indicate that a mental health condition, including PTSD; TBI; or sexual assault/harassment existed at the time of discharge might have mitigated the misconduct that caused a discharge of lesser characterization.

(2) Conditions documented in the service record that can reasonably be determined to have existed at the time of discharge will be considered to have existed at the time of discharge. In cases in which a mental health condition, including PTSD; TBI; or sexual assault/harassment may be reasonably determined to have existed at the time of discharge, those conditions will be considered potential mitigating factors in the misconduct that caused the characterization of service in question. All Boards will exercise caution in weighing evidence of mitigation in cases in which serious misconduct precipitated a discharge with a less than Honorable characterization of service. Potentially mitigating evidence of the existence of undiagnosed combat related PTSD, PTSD-related conditions due to TBI or sexual assault/harassment as causative factors in the misconduct resulting in discharge will be carefully weighed against the severity of the misconduct. PTSD is not a likely cause of premeditated misconduct. Caution shall be exercised in weighing evidence of mitigation in all cases of misconduct by carefully considering the likely causal relationship of symptoms to the misconduct.

c. Army Regulation 15-180 (Army Discharge Review Board), sets forth the policies and procedures under which the Army Discharge Review Board is authorized to review the character, reason, and authority of any Servicemember discharged from active military service within 15 years of the Servicemember's date of discharge. Additionally, it prescribes actions and composition of the Army Discharge Review Board under Public Law 95-126; Section 1553, Title 10 United States Code; and Department of Defense Directive 1332.41 and Instruction 1332.28.

d. Army Regulation 635-40 (Disability Evaluation for Retention, Retirement, or Separation), paragraph 4-3f(1), states enlisted Soldiers who are approved for discharge in lieu of trial by

court-martial are ineligible for referral to the MEB and PEB phases of the DES (see AR 635-200). If the Soldier is in the DES process, the applicant's DES case will be terminated, and the Soldier is discharged in lieu of trial by court-martial.

e. Army Regulation 635-200 (Active Duty Enlisted Administrative Separations), provides the basic authority for the separation of enlisted personnel.

(1) Chapter 3, Section II provides the authorized types of characterization of service or description of separation.

(2) Paragraph 3-7a states an Honorable discharge is a separation with honor and is appropriate when the quality of the Soldier's service generally has met the standards of acceptable conduct and performance of duty for Army personnel or is otherwise so meritorious that any other characterization would be clearly inappropriate.

(3) Paragraph 3-7b states a General discharge is a separation from the Army under honorable conditions and is issued to a Soldier whose military record is satisfactory but not sufficiently meritorious to warrant an honorable discharge.

(4) Paragraph 3-7c states Under Other Than Honorable Conditions discharge is an administrative separation from the Service under conditions other than honorable and it may be issued for misconduct, fraudulent entry, security reasons, or in lieu of trial by court martial based on certain circumstances or patterns of behavior or acts or omissions that constitute a significant departure from the conduct expected of Soldiers in the Army.

(5) Chapter 10 provides, in pertinent part, that a member who has committed an offense or offenses for which the authorized punishment includes a punitive discharge may submit a request for a discharge for the good of the Service in lieu of trial by court-martial. The request may be submitted at any time after charges have been preferred and must include the individual's admission of guilt.

(6) Paragraph 10-8a stipulates a discharge under other than honorable conditions normally is appropriate for a Soldier who is discharged in lieu of trial by court-martial. However, the separation authority may direct a general discharge if such is merited by the Soldier's overall record during the current enlistment. (See chap 3, sec II.)

(7) Paragraph 10b stipulates Soldiers who have completed entry-level status, characterization of service as honorable is not authorized unless the Soldier's record is otherwise so meritorious that any other characterization clearly would be improper.

f. Army Regulation 635-5-1 (Separation Program Designator (SPD) Codes), provides the specific authorities (regulatory or directive), reasons for separating Soldiers from active duty, and the SPD codes to be entered on the DD Form 214. It identifies the SPD code of "KFS" as the appropriate code to assign enlisted Soldiers who are discharged under the provisions of Army Regulation 635-200, Chapter 10, In Lieu of Trial by Court-Martial.

g. Army Regulation 601-210, (Regular Army and Reserve Components Enlistment Program), governs eligibility criteria, policies, and procedures for enlistment and processing of persons into the Regular Army, the U.S. Army Reserve, and Army National Guard for enlistment per DODI 1304.26. It also prescribes the appointment, reassignment, management, and mobilization of Reserve Officers' Training Corps cadets under the Simultaneous Membership Program. Chapter 4 provides the criteria and procedures for waiverable and nonwaiverable separations. Table 3-1, defines reentry eligibility (RE) codes: RE-4 Applies to: Person separated

from last period of service with a nonwaiverable disqualification. This includes anyone with a DA imposed bar to reenlistment in effect at time of separation or separated for any reason (except length of service retirement) with 18 or more years active Federal service. Eligibility: Ineligible for enlistment.

8. SUMMARY OF FACT(S): The Army Discharge Review Board considers applications for upgrade as instructed by Department of Defense Instruction 1332.28.

The applicant requests an upgrade to honorable.

The applicant contends suffering from PTSD. The applicant did not submit any evidence, other than the applicant's statement, to support the contention. The AMHRR is void of a mental status evaluation.

The applicant contends being subjected to abuse by their own nation because of their religious convictions. The applicant was unable to find it in themselves to kill another human being. The applicant did not submit any evidence, other than the applicant's statement, to support the contention. The applicant's AMHRR does not contain any indication or evidence of arbitrary or capricious actions by the command.

The applicant contends they were at war, therefore their plea to be medically discharged for cold-weather injuries was denied. The applicant did not submit any evidence, other than the applicant's statement, to support the contention. Army Regulation 635-40 (Disability Evaluation for Retention, Retirement, or Separation), paragraph 4-3f(1), states enlisted Soldiers who are approved for discharge in lieu of trial by court-martial are ineligible for referral to the MEB and PEB phases of the DES (see AR 635-200). If the Soldier is in the DES process, the applicant's DES case will be terminated, and the Soldier is discharged in lieu of trial by court-martial. The applicant's AMHRR does not contain any indication or evidence of arbitrary or capricious actions by the command.

The applicant contends an upgrade of the discharge will allow the applicant to obtain better employment. The Board does not grant relief to gain employment or enhance employment opportunities.

9. BOARD DISCUSSION AND DETERMINATION:

a. As directed by the 2017 memo signed by A.M. Kurta, the board considered the following factors:

(1) Did the applicant have a condition or experience that may excuse or mitigate the discharge? **Yes.** The Board's Medical Advisor, a voting member, reviewed the applicant's DOD and VA health records, applicant's statement, and/or civilian provider documentation and found that the applicant has the following potentially-mitigating diagnoses/experiences: The applicant contends the misconduct was related to PTSD.

(2) Did the condition exist or experience occur during military service? **Yes.** The Board's Medical Advisor found the applicant asserts in-service PTSD.

(3) Does the condition or experience actually excuse or mitigate the discharge? **No.** The Board's Medical Advisor applied liberal consideration and opined that the applicant contends the misconduct was related to PTSD. A review of the available records was void of any history of BH diagnosis or treatment during or after service and the applicant provide no evidence supporting the assertion that the misconduct was related to PTSD. In absence of

documentation supporting the assertion, there is insufficient evidence to establish the misconduct was related to or mitigated by PTSD.

(4) Does the condition or experience outweigh the discharge? **N/A.**

b. Response to Contention(s):

(1) The applicant contends suffering from PTSD. The Board considered this contention and the applicant's assertion of PTSD, however the Board could not determine whether the applicant's asserted PTSD actually outweighed the applicant's AWOL without the Board Medical Advisor determination on medical mitigation. Without additional medical evidence, the Board was unable to determine if the applicant's asserted PTSD outweighed the applicant's discharge.

(2) The applicant contends being subjected to abuse by their own nation because of their religious convictions. The applicant was unable to find it in themselves to kill another human being. The Board considered this contention and determined the applicant's discharge is appropriate as applicant's religious convictions does not mitigate the applicant's AWOL as the Army affords many avenues to Soldier's including seeking separation for hardship.

(3) The applicant contends they were at war, therefore their plea to be medically discharged for cold-weather injuries was denied. The Board considered this contention and determined there is no evidence in the applicant's file to support a medical discharge consideration request from a medical provider for any conditions or injuries experienced by the applicant.

(4) The applicant contends an upgrade of the discharge will allow the applicant to obtain better employment. The Board considered this contention but does not grant relief to gain employment or enhance employment opportunities.

c. The Board determined that the discharge is, at this time, proper and equitable, in light of the current evidence of record. The applicant has exhausted their appeal options available with ADRB. However, the applicant may still apply to the Army Board for Correction of Military Records. The applicant is responsible for satisfying the burden of proof and providing documents or other evidence sufficient to support the applicant's contention(s) that the discharge was improper or inequitable.

d. Rationale for Decision:

(1) The Board voted not to change the applicant's characterization of service because, despite applying liberal consideration of all the evidence before the Board, the applicant's asserted PTSD did not excuse or mitigate the AWOL offense. The discharge was consistent with the procedural and substantive requirements of the regulation, was within the discretion of the separation authority, and the applicant was provided full administrative due process. Therefore, the applicant's Under Other Than Honorable Conditions discharge was proper and equitable as the applicant's conduct fell below that level of satisfactory service warranting a General discharge or meritorious service warranted for an upgrade to Honorable discharge.

(2) The Board voted not to change the applicant's reason for discharge or accompanying SPD code under the same pretexts, and the reason the applicant was discharged was both proper and equitable.

(3) The RE code will not change, as the current code is consistent with the procedural and substantive requirements of the regulation.
